## HEAVY WIND STORM CAUSES DAMAGE

### Tinley Police Chief Hands J. P. A Ticket

Chief of Police C. A. Steinhagen of Tinley Park has been waging a very active campaign to collect delinquent vehicle licenses and has been writing out tickets for those delinquents who have failed to get a license to pay up. Those receiving tickets have had to appear before Police Magistrate Brown Campbell and have had to pay fines in addition to regular license fee.

About two years ago when deep holes appeared in the street in front of the residence of Justice of the Peace Charles Bochstahler at 17435 66th ave., in Tinley Park, the Village Board of Tinley Park according to Justice Bochstahler, agreed to repair the street with the state gas tax funds. He states that nothing has been done about the matter, although he charges the state gas money is now on deposit in the Bremen State Bank and by now the holes in the street are nearly a foot deep.

In view of this condition Justice Bochstahler decided he would not pay his vehicle license this year and refused to pay for a license tag when Police Chief C. A. Steinhagen came around to collect for same.

However when Justice Bochstahler refused to pay the vehicle tax, the police chief handed him a ticket to appear before Police Magistrate Brown Campbell last Saturday, but the Justice ignored the ticket.

Wednesday of this week Justice Bochstahler did purchase a license tag from Village Clerk Wm. Firchau. Justice Bochstahler feels he is being discriminated against and declares that a number of delinquent licenses were not collected last year and that the delinquents got away with it. He feels that the village should repair the streets so long as money is being paid in by auto owners for that purpose.

### WHAT REAL FRIENDS CAN AND WILL DO

A spirit of friendship and neighborliness was demonstrated at New Lenox recently when approximately 30 co-workers of Edw. E. Gordon, gathered at the Gordon home to complete the building of an addition that Mr. Gordon had started before he was injured in the recent explosion at the Wilmington Ammunition plant in which he was quite seriously injured.

Mr. Gordon is still confined to the plant hospital and is reported to be getting along nicely. He was employed on Line No. 2 by Sanderson and Porter.

### NEW LENOX ASSESSMENT ROLL AND SCHOOL TREAS. REPORT PRINTED

The annual School Treasurers reports of New Lenox and Homer Township appear in this issue. Read them over for your information. Also appearing in this edition is the annual Personal Property Assessment roll of New Lenox township for the year 1942.

### FRANKFORT MAN ASKS SIGNERS FOR LOCAL LOCKER STORAGE PLAN

A. C. Bauch, Frankfort recently conceived the idea of establishing a Food, meat locker system in Frankfort. This week Mr. Bauch is mailing out cards to a list of approximately 700 residents in the Frankfort area with the view of interesting as many as possible to rent a locker.

Mr. Bauch states as follows: In view of the meat and vegetable shortage we have decided to try to help a great number of people in this problem so they may economize by buying their meats and vegetables in large quantities. We have bought and are about to install freezing equipment and lockers for the storing of foods and meats and are advised by the Government that a large majority of these lockers must be rented before they will give us priority to install them.

If you are interested kindly sign the card and send it by return mail. As soon as Mr. Bauch receives the required number of renters he will be able to begin installation works of the proposed locker system.

### FRIED CHICKEN DINNER AT TINLEY METHODIST CHURCH AUG. 6TH

What, Fried Chicken Dinner. When, Thursday August 6 from 5 to 8. Where, Tinley Park Methodist church. Remember the date and plan to attend.

### HEIGHTS TEAM TO PLAY AT ORLAND PARK SUNDAY.

A Chicago Heights team will play the Orland Park Boosters team at Orland Park Sunday afternoon.

### CHAS. FRAELICH, FRANKFORT A VICTIM OF HEAT

Chas. H. Fraelich, aged 62 years, of Frankfort, collapsed and died while at work Monday, afternoon in the back yard of a property he owned at 405 N. Hickory Street, Joliet.

He was a victim of heat according to the findings of Dr. E. A. Kingston Will County Coroner. The immediate cause of death was a heart collapse but Dr. Kingston found that it was super induced by heat and exercise. Mr. Fraelich was cutting weeds when he suddenly called to a relative, Richard Meyers, 18 years old of Frankfort who was helping him and then died.

Mr. Fraelich is survived by the widow Bell Meyers, Frankfort, 2 step children, Richard Meyers, Frankfort and Mrs. Lillian Schumann, Lockport, a sister Mrs. Henry Krohn Spencer, and a half sister Mrs. Eva Holman, Manhattan. Funeral services were held Wednesday afternoon at the St. Peter's Evang. church in Frankfort. Burial was made in the St. John's Cemetery in Mokena.

### SEVERAL THOUSAND CHICKENS BURNT IN FIRE ON BUESCHEL POULTRY FARM

Several thousand chickens fell prey to flame and smoke on the A. E. Bueschel poultry farm north of Mokena on Wolf Road Thursday noon when the large chicken house in which they were housed caught fire.

The origin of the fire has not been determined. Mr. Bueschel had just gone to dinner when the blaze suddenly broke out.

The Mokena fire department was called and soon had pumped the water supply on the place dry. The Mokena Oil Co. emptied their two large delivery trucks and filled them with water and rushed to the aid of the fire fighters. Considerable damage was done to the chicken house before the flames were under control.

### MOKENA RED CROSS BRANCH RECEIVES QUOTA OF 2500 SURGICAL DRESSINGS

A quota of 2500 surgical dressings for the Army was received this week by the Mokena branch. It is earnestly hoped that there will be a large group of women coming to the work room on Mondays from 1:30 to 3:30. This quota must positively be in Chapter headquarters by August 25.

We are glad to welcome the Lutheran church Aid to our ranks of volunteers as a group in the work room on their regular meeting day, with the promise of more time if it is needed by the Red Cross.

The Mokena First Aid Detachment will meet at the work room Friday July 31 at 8:30 to begin our Special Detachment training. There will be a stretcher drill and other practical work and the presentation of material on war Gases by Mr. Joseph Heyden who has been appointed to handle this subject in Mokena by the O.C.D.

It is hoped that all those who have completed the Standard and Advanced First Aid courses will come out for these meetings. We plan on having some social times as well as practical work, so come on you First Aiders.

### SUGAR FOR CANNING RATIO 1-2 LB. PER PERSON

The Mokena Sugar Rationing Board, supervised by Mrs. Joe Hayden, announces that sugar for threshing can be had at the ratio of one-half pound per person for 21 meals. Each thresher should present his sugar ration book to the housekeeper where they are threshing, so that the housekeeper may ascertain the number of the book, which is all that is needed for the housekeeper to receive extra sugar for threshing.

Mrs. Heyden will be at the Village hall in Mokena starting Wednesday August 5 from 9:00 a.m. to noon and from 8 to 10 p.m. each week to the end of threshing or Aug. 28th. Mrs. Heyden says she will be glad to have anyone volunteer to assist her in this work.

### GRANTED DIVORCE DECREE

Mrs. Edith Wannemacher of Mokena was granted a divorce from Mokena last Thursday. Her former husband George Wannemacher mer name of Edith Mau was restored to her.

### LORNA ANDRESEN DIES IN SANITARIUM

Funeral services for Miss Lorna Andresen of Alpine who died in a sanitarium near Chicago last Saturday, were held at the Hirsch Funeral Home in Tinley Park Tuesday afternoon. The deceased was the daughter of Barney Andresen of Alpine.

Burial was made in the Hadley cemetery in Homer township.

### Jack Gougar of New Lenox In Midway Scrap

Jack Mason Gougar, radio man 3rd class was aboard the U. S. S. Yorktown at the battle of Midway Island. He is the son of Mr. and Mrs. Walter B. Gougar Sr. of New Lenox and has been in the Navy since January 10, 1941. He was stationed at Great Lakes from January until March and upon completing his basic training there was transferred to the Naval Training Station at San Diego, Cal.

While in San Diego he studied to become a radio man. He left California in August for Norfolk, Va. where he was assigned to the Aircraft Carrier U. S. S. Yorktown. He was a Radio man in one of the Torpedo planes on that ship. While with the fleet Jack was in Newfoundland and also 12 hours from Liverpool, Eng.

His ship was behind the Reuben James when that ship was sunk.

Shortly after December 7 Jack was back in the Pacific, this time with the fleet. His mail has been very irregular and at times two months elapse before his parents receive any word from him. Shortly before the Government released the dispatch that the Yorktown had been damaged Mr. and Mrs. Gougar received a letter from Jack informing them of his transfer to another aircraft carrier. They then had a feeling that something had happened to his ship. When the Government released the dispatch they were very glad they had heard from him, knowing he was safe.

It has been a year and four months since they have seen him. Since Jack has been in the Navy he has received a rating of Petty Officer 3rd class and is now training to become a second class Petty Officer.

### Kiwanis Band To Play At Mokena Home Coming

Among the entertainment features announced for the annual Mokena Home Coming celebration August 21, 22 and 23 will be the Kiwanis band of Chicago Heights, the Salem Evangelical church choir of Chicago and Miss Dorothy Robson, Radio singer of Palos Park and members of the class of Mrs. Hauser in Joliet.

The Midway of the festival will be front street as in past years but will be extended further eastward up to the Sippel store site. Many new added features and rides has made it necessary to lengthen the midway.

Watch for other interesting announcements in future editions of this paper.

### ORLAND PARK POST OF AMERICAN LEGION ELECT HARRY RAUCH SR. COMMANDER

At the annual election of Orland Park Post of the American Legion, held Tuesday July 28, the following officers were elected:

Commander, Harry Rauch, Sr. vice Commander, Wm. Myrick, Jr. Vice commander, Geo. Sayers, Adjutant Sherman S. Knox, Finance Officer, Ray Doctor, Chaplain, Thos. Cooper, Service Officer, Van Buren Knox, Sgt. at Arms, John Busch, Delegate to State Convention, Geo. Cox, Alternate, Herman Nicolai.

### WM. N. ERICKSON DAY SET FOR AUGUST 13.

The annual William N. Erickson Day, an event of great import to Cook County and state leaders and friends of County Commissioner Erickson, is set for Thursday, August 13 at Techny Field, Northbrook Ill. this year it was announced by Rep. Alan Ashcraft, Chairman.

The big event will run from 9 a.m. until late evening including lots of golf, with three trophies offered for low gross, low net and ladies best score. Many other prizes will be offered.

The event is held each year and has grown until 5000 persons are expected. Gov. Dwight H. Green, U. S. Senator Wayland C. Brooks, and other Republican notables are expected including County Commissioners Wm. Busse, Geo. A. Miller, Geo. F. Nixon and John Mackler.

### SALE DATES

Aug. 1, Arthur H. Fox, 5 miles So. of Joliet.  
Aug. 8, Wm. A. Wilkin, Tinley Park

### HOUSEWIVES ASKED TO PREPARE AND ANSWER RATIONING QUESTIONS

Mrs. Joseph Heyden who is in charge of the sugar rationing at Mokena is asking all the housewives who will apply for sugar for canning this Fall to study over the following questions which will be asked of them when making their sugar for canning application, and by so doing they will greatly aid in filling out the application blanks with as little delay as possible. The questions that will be asked are as follows:

Number of quarts of fruit canned in 1941?  
Number of quarts of fruit to be canned this fall?  
Peaches- Pears- Apples- Plums- Grapes, Others?  
Amount of sugar you are applying for?  
Amount of sugar received for spring canning?  
Amount of fruit canned this spring  
Amount of sugar received for jams, jellies, pickles?  
Amount of excess sugar supply at time of original consumer registration May 4, 5, 6 and 7?

### Bring In Your Old Discarded Phonograph Records

Jacob DePorto of Frankfort has been assigned by the Rehfield Meyer Legion Post at Matteson to aid in the drive to collect old or broken phonograph records which will be melted and new records made therefrom for use in U. S. army camps all over the world.

Anyone having old phonograph records which they are willing to donate in this drive can leave same at The News Bulletin office in Mokena and Mr. DePorto will pick them up here. Any contributions for the above will be greatly appreciated.

### SIXTY-THREE MOKENA LANDLORDS REGISTER

Tuesday of this week 63 Mokena landlords registered at the Village Hall as requested by the federal ruling. It is reported that six landlords refused to register.

### LACK OF FARM LABOR CAUSES WILKIN DAIRY AT TINLEY PARK TO QUIT

The Wilkin dairy at Tinley Park is going out of business due to lack of farm help. The herd of 72 head of choice dairy cattle will be sold at public auction Saturday, August 8th. Edw. Schmaedeke will conduct the auction.

### DR. M. J. BUCKLEY OF FRANKFORT CALLED FOR ARMY SERVICE

Dr. M. J. Buckley of Frankfort leaves to-morrow for induction into the U. S. Army Medical Corp. He will be stationed for sometime in Chicago and will commute back and forth from Frankfort and Chicago.

### ORLAND RATIONING BOARD MOVES TO NEW QUARTERS ABOVE ORLAND BANK

On and after Aug. 1 the Orland Rationing board, which has been located above the Village Hall, will occupy their new quarters above the Orland State Bank. The hours will be as before 8 to 12 and 1 to 5 on week days and 8 to 12 on Saturday. The office will also be open on Friday evenings from 7 to 9 p.m.

It has been reported that holders of certificates for retread or recapped tires are experiencing difficulty in obtaining these tires.

In many cases, serious inconvenience has been caused to those who depend on the automobile for transportation. In order to relieve this situation, as much as possible, the Orland Rationing board is suggesting that workers who are willing to double up or who desire to secure rides with other drivers, should register with the Secretary of the Board, their names, addresses, phone numbers, place of employment and hours for which transportation is needed or can be provided.

It may be thus possible to share transportation facilities to the greatest good to all. The Board is making this simply as a suggestion and is voluntarily offering its services to relieve the transportation problem and it is to be understood that it does not assume any responsibility in the matter.

### ST. JUDE PICNIC AT NEW LENOX AUG. 2

The St. Jude's Catholic church of New Lenox will hold their annual picnic Sunday, August 2 on the church grounds on South Cedar St. which is two blocks from the railroad or bus depot. A sumptuous chicken dinner will be served from 11 to 4. Games will be played. Every one is invited.

### Orland Legion Post To Hold 12th Annual Picnic

Final arrangements have been completed for the 12th Annual Picnic of Orland Park Post 526 of the American Legion which will be held Sunday, August 2 in the Forest Preserve grove at 143rd and Highland Ave.

The parade, which will start at 1:30 will proceed from there along 143rd street to the picnic grove. The Lemont Legion Post will feature the parade. Invitations have also been extended to the village, Township and School district boards as well as to the Legion Auxiliary, the Fire Department and various local organizations.

The usual games and attractions which have made Orland Legion picnics so popular in the past will be on hand as well as several new stunts. The refreshment stand will be in charge of the Ladies Auxiliary. A cordial invitation is extended to all to come and enjoy themselves at the picnic.

### New Lenox Woman First From This Area To Join WAAC

New Lenox and Will County have had the honor the past week of having their first accepted Officer Candidate in the newly formed Women's Army Auxiliary Corp. She is Miss Judith V. Warnecut, 28 years old.

Miss Warnecut was sworn in last Saturday by Col. Edw. F. Shaifer of the Army recruiting and induction Center at 515 S. Franklin Street, Chicago and will report for training at Fort Des Moines, Iowa, August 17.

The Officer Candidate is a graduate of Parson's College in Fairfield, Iowa and after teaching in Iowa public schools came to Lake Forest 4 years ago to become a 6th grade instructor in the public school system there.

She is the daughter of Mr. and Mrs. Harry B. Warnecut of New Lenox and has been making her home with her parents this summer. Her father is employed by the Rock Island railroad.

Altogether 20 women were sworn into the WAAC Saturday. The first group leaves on August 17, another on August 28 and the third on August 31. All the candidates except Miss Warnecut were from Chicago or immediate suburbs.

### NEW LENOX GARDEN CLUB TO MEET AUGUST 6

The New Lenox Garden club will hold their next monthly meeting at the home of Mrs. John Spuehler on Thursday August 6 at 2 p.m. At this meeting Mrs. John Jennings of Joliet will speak on flower arrangements.

### RETURN FROM ENJOYABLE WESTERN TRIP

Mr. and Mrs. Clyde Smith and son Marvin of Blue Island, Mrs. Smith being the daughter of George Bettenhausen of Tinley Park, have just returned from an enjoyable trip thru the west covering 2980 miles. They were in seven states, Iowa, Minn., S. Dakota, Nebraska, Missouri, So. Ill. and So. Indiana. They advise every body to see the Black Hills and view some of God's mystery, and creation as it is so wonderful.

The crops are not so good in So. Dakota, corn is only knee high. In Nebraska the haying is just about finished and in Missouri and So. Ill. and So. Indiana they have very good corn, six and seven feet high but heavy rains caused corn in the bottom lands to fall over and dry. The rain also held the farmers back so very few got their oats thrashed.

### FELLOWSHIP DAY TO BE OBSERVED AT NEW LENOX CAMP GROUNDS

The Methodist church at New Lenox will observe a Fellowship Day at the New Lenox Camp grounds at 11 o'clock Sunday.

Sunday School as usual will be at 9:30 a.m. in the church and at 11 o'clock the morning worship will be held at the Camp grounds. At the close of this service the congregation will enjoy a potluck dinner. Entertainment will be provided for the afternoon hours. Everyone is cordially invited to come and participate in this enjoyable service.

### KREUGER FUNERAL HOME OPENED IN OAK FOREST

The well known undertaking firm known as the Kreuger Funeral Home of Blue Island recently opened a fine modern funeral parlor in Oak Forest at 4807 W. 159th St.

This funeral home is in charge of Walter S. McKenzie as manager. This new firm aims to give the best of service with their excellent facilities.

### Trees, Electric Wires Blown Down At Mokena

The worst windstorm which has hit the Mokena area for many years, hit the northwest and east sides of the village hard late Thursday evening when a heavy wind, thunder, rain and hail storm swept in from the northwest following extreme sultry weather during the afternoon.

The heavy wind of cyclonic proportions raised havoc with trees, electric wires and laid the corn flat in many cases.

A big tree was blown down in front of the Albert Braun place and blocked First street. The tree was on the Scheiblich property. In falling the tree carried the light line down with it, causing live wires to dangle in the streets. The same thing occurred in front of the A. E. Wachter place where a live wire also hung dangerously close to the street. Near the Robinson tavern in the south side of the village a broken live wire hung near the Wolf road.

The wind took a course from the northwest toward the east. The lower end of Mokena was not affected as badly as the northwest and east ends.

A huge tree on the Niethammer property adjoining the News-Bulletin office was blown down and fell on top of the News-Bulletin building punching a hole in the roof.

Another huge tree on the Wm. Abbe place at the northeast side of the village was blown clean across the road, blocking all traffic. Electric wires were also pulled down.

Another big tree in front of the residence of Mrs. M. Newton was blown down and blocked Mokena street.

The News-Bulletin printing plant was out of commission for several hours until light and power service could be restored.

The Public Service Co., had a crew of men here in short order and did a fine job in restoring service as quickly as possible.

Candles and lamps were used for the time being.

Cooper & Hostert and Fred Steinhagen used their wreckers and trucks to haul away the fallen trees which were dragged to and piled up in the old school yard in the east side of the town. Telephone lines were also damaged.

No direct damage was done to dwellings.

Good sized hail stones accompanied the storm, but did not fall very long. A torrential downpour of rain followed along with the storm.

### CUSHIONS IN AUTO CATCH ON FIRE

Saturday evening shortly after John Cappel had run his car into a garage on the Fred Hentsch place on Wolf road in Mokena, Dean Reuckert noticed smoke coming out of the building. The Mokena Fire Department was called and found the cushions of the front seat of the car on fire. The car was backed out and the blaze was quickly put out. It is presumed loose matches may have caused the fire which did about \$40 damage.

### DISCARDED PHONOGRAPH RECORD DRIVE NEAR END

With only a few days remaining until August 2, the date marking the conclusion of the American Legion's city and nation wide drive to collect 37,500,000 old, used and broken records American Legionnaire and Legion auxiliary members all over are hustling from door to door in a last minute effort to put the scrap record campaign over the top.

According to Arthur E. Canty, Commander of the Cook County Council of the American Legion, the first ten days of the campaign met with a fine degree of success.

### MOKENA SUNBEAM CAMP RNA PACKING SOLDIER GIFT BOX

The Mokena Sunbeam Camp RNA 6054 will pack two boxes at the home of Mrs. August Pfleger, Tuesday, August 4th to be sent to local soldier boys in camp. All those wishing to leave donations may do so. The next RNA meeting will be in September.

Word has been received from Clarence W. Werner that is now at Camp Swift, Texas.

### Launch USO Drive At Mokena Monday

Mayor Harry F. Mall of Mokena announces that a big USO drive is being launched in Mokena Monday of next week and will continue for four days ending Thursday. A house to house canvass will be conducted.

# Common Sense Will Help Smash Summertime's Heat

Dress Lightly, Eat Little but Often, Relax, Don't Get Too Much Sun at One Time, Is Way to Keep Cool.

By CLIFF LANGE  
Released by Western Newspaper Union.

Don't let the heat get you down! Don't let it keep you from working, or eating or enjoying your spare time. Don't let it keep you from sleeping and getting that so very necessary rest.

Science and 1942 ingenuity have gone a long way helping you combat the heat waves. Combine this with the basic aid of forgetting the temperature, and you'll be well on the way to whipping those red hot, "mid-summer blues."

True, you can't do much about lowering the sizzling temperature. You can do a number of things to help keep yourself cool as you go through your daily routine.

For instance, the first thing to remember to do is to "dress cool." Don't wear heavy, tight fitting clothing.

Clothing has been devised—from the time when animal pelts were the style both for man, woman and grown-up children—as a protection from the elements whether sun, rain, snow, sleet or biting wind. Don't use winter style of dressing for the summertime. Shed some of those clothes!

You ladies who are handy with the scissors, needle and thread can whip together some dandy summer work, play or "visiting" dresses easily enough these days. There is still plenty of dress material to be had.

Ready-made dresses are also plentiful, and reasonably priced, too.

Take a look at your favorite store. You'll see both plenty of dresses, and material to make them.

There is no reason, either, why the men, young and old, shouldn't be dressed to combat the heat. Many men, when asked why they are dressed so "hot" in the summertime, usually give an answer which seems to suggest they "hadn't thought about it" or "were too busy" to do anything about it. Meanwhile they continue working with the sweat rolling down their temples.

Men are slow in changing to new, even a more comfortable style of clothing. Those that aren't so conservative aren't getting shoved around by the heat this year like their more backward brethren are. They were more willing—i.e., the married men, the fathers—to see their daughters going around in shorts, rather than themselves. When really it was the men, not the women that needed them!

Maybe, when shortages in cloth, dress goods begins to appear, which it hasn't, as yet, it will be the usual thing for the men to be wearing them. What difference does it make whether they are worn driving

## —King Cold—

This method of keeping cool (or cold, if you prefer) is just one of many hundreds of ways available. This young fellow has a look of doubt, a stiffness of form which causes a person looking at him to

wonder whether this is the best method to defeat the heat of summer. Perhaps it is just a spirit of contemplation which has overcome him—lifted him above all mortals, away from mundane thoughts. Or is it?

## 'War Nerves' Even Disturbing Children

The war has created for children many serious problems which American parents and teachers must face. Dr. Clifford E. Erickson of the school of education, Northwestern university, asserted in a lecture of the summer session series at the Evanston, Ill., university.

Basing his conclusions on research studies and confidential documents regarding the effect of the war on English children, Dr. Erick-

son warned that under present conditions it is impossible to protect children from many life situations which have formerly been "tabooed."

"In many cases we can no longer keep children from knowledge of death, dying, disease, wounds, birth, sex, and human nature in the raw," he said, adding that as a result children are emotionally disturbed.

Like clothing, food in the summertime has much to do about keeping one from being knocked out, figuratively or actually.

Don't eat so much "heavy" food even though you do have to eat plenty of food, either because of your job, or your nature. "Eat but little, but often" holds more true for summertime than any time of the year.

That "little, but often" holds for the so-called light foods which you see advertised in your grocery, meat shop, fruit store and delicatessen.

In the summertime is when "acid conditions" get you quicker than any other season. It is such a condition which affects you both in your ability to work, and capabilities of

## Uuum-Humh!

And this is an ice cream cone. It could be vanilla, peach, lemon, tutti-frutti, or perhaps pineapple. It doesn't make that much difference, though.

The man behind the ice cream cone is important. That man is hot. He wanted to do something about it. He did. He bought that ice cream

cone. He is now about to give it a genuine workout.

When he was a little boy he learned that this was one of the more suitable ways of cooling off. He also learned that the hotter the weather the more you eat of them, and also the quicker you have to eat them or they drip over your hands.

enjoying your activities during the heat of the day.

Check up on yourself. See how much of the food you are eating is "acid" producing. If you aren't sure, ask your doctor. He'll be able to tell you without much ado. A trip straight to the druggist from his office in case he has prescribed for you either to counteract an acid condition, or prevent one, is then in order.

If you haven't noticed already, at the druggists you'll see many preparations to prevent, allay, or stop the personal outward discomforts due to the heat.

Talcum powder, salt tablets, soaps, sunburn salves and oils—such are just a few of the many articles available which are almost a necessity around the home during the torrid time.

It is during these hot months when the very youngest, and the oldest suffer the most. Infants, not being able to express their displeasure at being uncomfortable in any other way than their only way, a reasonable crying spell, or a healthy wail, should be closely watched.

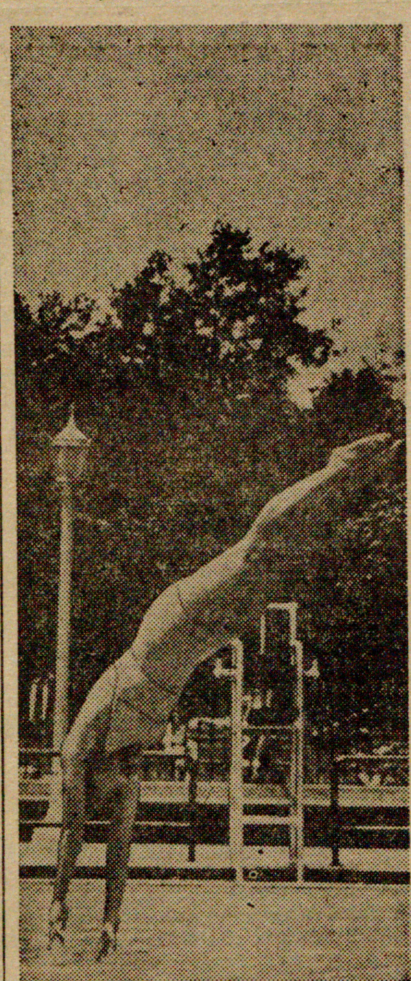

They should be dressed with a minimum amount of clothing. Either next to nothing, or nothing. The coolest side of the house, or out on the porch, or in the shade beneath the tree is the spot for them.

The old folks even though less apt to complain about the heat are more susceptible to it than those

## Best Way

This is one of the nation's favorite ways of cooling off. It doesn't make any difference whether you swim in a private pool, a park, river, pond lake or sea—it does the trick.

The summer sun, in seeming retaliation, shows its resentment on

thousands of swimmers every day by giving them a severe case of sunburn, or blistering.

Enjoy your swim, but don't take too much of the sun at one time.

who complain. They, too, should be made as comfortable as possible. They, too, are the ones who should be reminded that what they formerly used to do, "just to help out," shouldn't be done in the hot weather. For there is a debilitating effect of the sun quickly noticeable on the aged and weak.

One of the pleasures of the summer months are the outdoor picnics, the family reunions, the parties and fishing trips both for the youngsters and the grownups.

Although rubber restrictions will cut down on many of the long auto trips on such picnics and outdoor excursions, it won't—at least it shouldn't for the ingenious—cut down on the outings held in the nearby woods, or even in the side, or back.

It is on such picnics, and side-yard excursions that real summer time meals, old style "Dutch Lunches" can be served. Meals having salads, cold cuts, cheeses, lemonade, iced-tea, iced-coffee, and other fruit juice drinks.

The little extra equipment needed for such meals that break the monotony of eating indoors all the time is available at any of the local retail stores. It used to be during the not far past days that it was thought necessary to travel 15 to 50 miles to a favorite picnic spot. There there would be the steak fry on the fire pits, or the weiner roast.

Today, with plenty of room available, alongside or behind the house, or in the field or woods near home, there is no reason why similar "picnic" equipment isn't available. The war hasn't stopped, in fact, couldn't stop, American ingenuity.

Many times, too, in the desire to cool off there were long trips to distant pools, or "favorite" spots on lakes and rivers. Today, when rationing has stopped that there is no reason why the shower equipment at home shouldn't be given an extra workout.

You know, just because it used to be only the kids who had a good time with the outdoor shower is no reason why you couldn't enjoy one, too. Of course if you dislike the idea of imitating the kids and enjoying the whirling spray, why not rig up an outfit for you and the rest of the older persons.

Such an outfit could be dropped from one of the trees in the yard, or attached to a post used for the washline.

This war has brought the people of the nation more closely together than at any time since the advent of the automobile. This year there'll be more local entertaining, visiting, and genuine social life than ever before.

Common sense will take care of most of the heat's oppressiveness. That which can't be taken care of should be treated as a matter of fact. A matter of, "Well, this is the summertime. It should be hot."

This summer has seen, and will continue seeing until the days cool off, plenty of local picnics in which various successful means to combat the heat have been achieved.

You can do more about taking care of the heat by actually doing something to counteract the effects of it. Talking about the weather, about "how hot it is" isn't doing you any good, nor the person saying it.

You got to help yourself, and those not able to help themselves, if you want to let Mr. Sun continue working while you do.

## Brazilian Girl Explorer Sculps Jungle Killers

Intrepid Young Woman Goes Into Wilds to Secure Subjects for Art

NEW YORK.—A woman with dark red hair walked softly in the jungle of Paraguay to kill a jaguar.

She saw a black spotted body touched by a flare of sunlight, lifted her rifle, fired—and missed. The lean cat sprang away, and a hunter beside her killed it with a single arrow. Vividly Miss Irene Hamar, 29 years old, native of Sao Paulo, Brazil, daughter of a Brazilian coffee planter, remembers now the powerful throb of the native hunter's bow, the arc of that arrow.

She remembers the moment when a hooked tarpon pulled her into the sea off Cuba, and the instant of teetering balance while she sped down a ski run on a Chilean mountain.

But—those aren't the most exciting moments of her life, she told Frank K. Kelly, Wide World writer.

The minutes which have set the deepest excitement in her throat have come, she declares, in the sudden emergence of living figures from hard cut stone, after days of struggle with a sculptor's hammer.

Exhibits Her Art.

Miss Hamar presented recently the first one-woman exhibition of Brazilian sculpture ever held in New York. She has 160 major works to her credit, many of them created in her studio overlooking the great harbor of Rio de Janeiro.

"I work 10, 12, or 14 hours a day there, for weeks and months," she murmurs. "How many hours, how long it takes, doesn't matter if I see something in the stone."

She has been engaged in sculpture for 17 years, beginning as a child by making plastic masques of the faces of the people she saw around her.

"It's a little like wrestling, a little like boxing with some one hidden from you," she believes. "I do not often make plastic models now. I attack the stone directly. I feel the dust in my face, I see something taking a form, coming alive for me. That is the best moment of all."

Miss Hamar studied in Paris and traveled through Europe several years in the middle 1930s, learned to speak French, English, Spanish, Italian and German in addition to her native Portuguese.

Likes Those Faces!

"The people everywhere have such fascinating faces," she says. "When I was a child, I couldn't help making masques of such wonderful expressions, such strange heads."

Although her exhibition included many portraits taken from people she has known, many of the figures were cut and hammered to fulfill the urges of her imagination, to give shape to what she felt was hidden in masses of white and rose marble, Brazilian alabaster, and bronze.

One of her favorites is a bronze figure of a woman with bowed head, called "vestal."

An Article of Distinction.

From the inevitable loneliness of an artist's studio, Miss Hamar turns often to the sea and to the swift thrill of skiing in Chile or Argentina. She holds medals for her skill as a ski runner and ski jumper, and she has caught huge tarpon in the Atlantic.

"Once I went out with some friends from Havana, and a tarpon pulled me right from the boat," she recalls. "As you say it—believe me, I let him go. It was not exactly what you would call an easy game of pingpong."

She has made trips up the Amazon river, visited the villages of the Bolivian Indians, and explored the vast jungle of the Matto Grosso plateau in Paraguay. It was in the jungle near this plateau that she went on foot with native hunters in search of jaguars.

## Fugitive for 25 Years, Man Confesses Murder

ROANOKE, VA. — Jack Furrow, who said his conscience hurt him so much that he feared he would go insane, has given himself up here for the slaying of a Franklin county man some 25 years ago.

County Sheriff Grady Gregory said a murder charge would be placed against Furrow, reopening a case that county authorities thought never would be solved.

Details of the murder were as vivid in the mind of Furrow as the day he says he committed the crime. He said he killed the man with a heavy rock.

After the murder, Furrow said he escaped by walking through the mountains at night and sleeping during the day. He went to Detroit, later to Louisville and finally to give up.

## Tank Carries Gifts of Thousands of Cigarettes

LONDON. — Thousands of cigarettes found in an American-built tank just received in Britain turned out to be a gift from the workers in the United States factory who made the tank for the British army ordnance corps men who were to service and equip it here. The cigarettes were handed around among the armorers and fitters at the central ordnance depot. The chief ordnance officer thanked the U. S. men.

## Pail Saves Life of Boy in Long Fall

NEW YORK. — A neighbor's pail saved the life of four-year-old Robert Reed.

While his mother was asleep, Robert went to the roof of the apartment building. Attempting to cross to a nearby building, he fell five stories to an alley.

A pail hanging outside a first floor window broke his fall.

## Mazie Quits Job; Bums on Own Now

Famous Bowery Character Plans to Write Book.

NEW YORK.—The bums of the Bowery have lost their platinum blonde shepherdess, Mazie Phillips of the Venice theater, who used to demand (and pay for) baths for her customers before she'd let them in.

Mazie is writing a book and she's quit her job because, she says, "I wanna do good."

The evangelical tone of her cigarette-husky voice would break the heart of any of the down-and-outers to whom she once barked: "The world is all smitched up, but I'm not goin' to have you bums lousin' up the theater. Here's a quarter, Go take a bath and come back."

But she insists that "all the money I make on the book is goin' on them poor bums. I ain't had a chance to tell them yet."

And her new spirit hasn't carried her to the point of believing in organized charity—yet.

"I'm not out to knock missions or such," she said, in her apartment under the shadow of the Brooklyn bridge. "But you ain't goin' to get a bum in a mission if there's a gutter to sleep in."

Her book is based on the experience of 30 years of brisk friendship with drifters, and she intends to give her observations on dirt, among other things.

"Dirt's healthy," says Mazie. "That's why them old bums live so long."

## Survey Shows Professor Is Not Absent-Minded

NEW ORLEANS.—The old saw about the absent-minded professor is out of date.

Dr. Logan Wilson, Tulane sociology professor who has just completed a study of the typical professor, says he is neither absent-minded, old fashioned nor crochety. He's a relatively alert family man with one or two children.

He is more self-critical than most folks and leans over backwards to avoid conformance to a stereotype. Nor is he particularly inclined toward political or social radicalism, Dr. Wilson found in opposition to another popular belief.

The typical professor has a Ph.D., teaches English and has taught in his present post from 6 to 10 years after teaching first in another institution.

If he engages in research work besides teaching, he not only stands higher in popular esteem but also has a brighter pecuniary future. Few universities, declares Dr. Wilson, have a promotional policy based solely on teaching.

## Horse Returns, Pulling Cart Loaded With Grief

COLUMBUS.—The silent art of pulling milk wagons is a hard one to revive.

Horses are not difficult to find, according to George L. Harper, divisional engineer for the Borden Dairy company, but teaching them to work between the shafts in city traffic is a patience-wracking process.

After you teach them the old tricks, it's a problem to find wagons—and if you get the wagons you have to manufacture your own gear.

Horse blankets, harness and nosebags are nearly as hard to obtain as the shoes. Antique shops have been ransacked for old style oil lanterns for the early-morning milk rounds.

The dairy has assembled a strange assortment of odds and ends from junkyards and warehouses. The company is manufacturing wagons by hand, using scrapped auto wheels, hand-made shafts and brakes forged in company shops.

## Close-Up Movies of War Thrill Moscow Audience

MOSCOW. — The first newsreel pictures from the Kharkov front, shown in Moscow, are probably the finest action pictures the war has yet produced.

You see the laying of a barrage before the offensive and two Red army anti-tank riflemen waiting tensely for the approach of German tanks. You see one man firing and another loading a tank.

Russian tanks, with the words, "For the Motherland" painted on their turrets, are shown crashing into villages of pulverized cottages and Russian assault troops are seen leaping through window frames to rout the enemy from their fortresses. The whole scene occurs in clouds of dust, flying rubber and splashed earth.

The camera takes you as near to real battle as you will ever get without joining the army and you sense the thrilling tenseness of the Kharkov offensive.

Experts Talk About Russia's New 'Secret' Weapon . . . Wooden Sailing Vessels to Be Used Soon . . .

Bell Syndicate—WNU Features.

WASHINGTON.—Russia will still be fighting when winter comes again. That is the assurance high government officials are giving.

What is more, some of them are predicting that the Nazis are in for some very unpleasant surprises before another month of fighting on the Russian front.

So much has been said about Adolf Hitler's various secret weapons, from time to time, that it is a relief to be able to state, on absolute knowledge, that the Russians will be trying out a secret weapon against Hitler.

More than this cannot be said, nor can any inkling of the nature of the "surprise" be given, but men who know their military tactics and their weapons, and know as much about German weapons and technique as anyone outside Germany itself, predict confidently that Hitler's generals will have to revise their entire strategy as a result.

This secret weapon, they think, is apt to prove as revolutionary in this war as the Merrimac and Monitor proved in the Civil war, though of course the new weapon applies to land fighting.

At first blush it might seem a great deal more encouraging if the new weapon were a sure cure for the submarine, for it is the battle of the Atlantic that is so all important.

Some experts point out, however, that while the submarine menace to shipping is the vital factor right now, so far as the news is concerned, the new weapon, which, by the time it gets into wholesale operation, will not only hold the Germans, but drive them back, may prove to be more timely than if it were what now seems so much more immediately necessary—a submarine cure.

## Harmful to the Nazis

The theory of the experts on this is that for the present, and for perhaps another year, the submarine in the Pacific is more important to us than to Japan. So that if a perfect cure for the submarine were devised, and the Japs were able to imitate it, the result might be to impede our mopping up of Japan rather than to aid it.

Experts believe that once the new weapon which is so confidently expected to aid Russia becomes known—as soon as it is used half a dozen times—the Germans will know precisely what it is, they will be able to imitate it without much trouble.

But this factor is not as important as it sounds. The net result, if BOTH SIDES had the weapon in quantity today, would be enormously harmful to Germany. It would neutralize what at present is a very real superiority on the part of the German armies.

## Old Timers Eager To Man Sailing Ships

The suggestion that a big fleet of amateur motor boatmen maintain a chain of protection along the coast against submarines has started a lot of thinking in Washington on an entirely different tack.

There are now some enthusiastic advocates of small sailing vessels—not to chase submarines; they would be useless for that—but to carry cargoes from near-by ports.

Now obviously an old-fashioned schooner, or smaller sailing craft, has passed into the discard so far as freight carrying is concerned simply and solely because it was cheaper to haul by power.

Why was it cheaper to use power than to use wind, which cost nothing? Because the sailing vessel required so much longer to make any given round trip. In the old days, at the rate of pay then in existence for sailors, this made little difference.

But with modern requirements both as to wages and as to living conditions aboard ship a condition was produced where if the little vessel were becalmed a week the total profit on the voyage would be lost.

But, as in the case of spending the additional money to get oil and gas to the Northeast, it may NOW be profitable, aside from any necessity, to use sailing vessels.

There is another important advantage, in view of present conditions, in using sail, if only small vessels are used. No one of them would be worth a submarine's time, shells, and, least of all a torpedo.

An old-fashioned Chesapeake Bay "bugeye," a type of sailboat pointed at both ends, having a large forward mast and a short mast behind, operated with a centerboard so as to make the fullest use of contrary winds, with only two men aboard and some 60 to 100 tons of sugar, would present little temptation to a submarine captain unless he were running short of sweets.

# GHOST PLANE

By ARTHUR STRINGER

W.N.U. SERVICE

THE STORY SO FAR: To help save Norland Airways Alan Slade agrees to fly a supposed scientist named Frayne and his assistant, Karnell, to the Anawotto river in search of the trumpeter swan. With the proceeds Slade's partner, Cruger, buys a new Lockheed, which is stolen. When Slade returns from the Anawotto, he starts out to find the plane, aided by an eskimo named Umanak and by his old prospector friends, Zeke and Minty. Slade goes to Frayne's camp, where he learns that the missing plane is being used by Frayne to take something out of the country. Slim Tumstead, a no-good flyer who has lost his license, is Frayne's pilot. When Slade attempts to investigate the plane's cargo he is knocked unconscious by Karnell. He is "rescued" by Tumstead, only to be abandoned by him on a deserted island. Zeke and Minty find Slade's plane and stay to guard it. Slade escapes to the mainland. Umanak is found, exhausted, by Dr. Morlock and his daughter, Lynn, and he tells them he has found the missing plane. He has also brought a sample of the plane's cargo, which turns out to be pitchblende, source of a new kind of power. They decide to take Umanak home and then look for Slade. Now continue with the story.

## CHAPTER XVI

But taking Umanak home had its difficulties.

"No like devil-bird," was his stubborn protest.

But the Flying Padre was insistent. And Lynn, after much talk and argument, finally persuaded the old Inuit to climb into the cabin. There he crouched down in a corner, with his hands covering his face. He moaned aloud as the plane took off. He continued to sweat and shiver on the trip back to Ivliuk Inlet. And once there, disdaining Lynn's help, he disembarked with unexpected celerity, to be surrounded by an admiring group of natives whose exclamations of envy did much to restore the old man's shattered morale.

But Lynn's father was no longer interested in Umanak.

"Our next job," he said, "is to get in touch with Corporal McGarry at Great Bear. This begins to look like a case where the territorial authorities ought to get busy."

Lynn showed no active interest in that suggestion.

"Our first job," she maintained, "is to find Alan."

Some unlooked-for timbre of determination in her voice brought the Flying Padre's glance about to her face.

"But I feel we ought to swing over to Echo Harbor first. Umanak's an Eskimo, and you can, of course, discount his story a little. But if he's found what he says there it ought to be confirmed."

"That can wait," said Lynn.

Lynn studied the country over which the faded blue wings of the Flying Padre's plane drifted like a shadow. It was country that was new to her, yet in its general aspects it was oddly familiar.

She sighed as the Flying Padre banked and turned and settled down on a blue-watered lake where the wild fowl scuttled away at their approach. She remained silent as the pontoons moved slowly in toward a pebbled shore fringed by a scattering of driftwood.

"That's all for today," said the man at the controls. He sat for a moment in silence. His face looked tired and dispirited. But when he glanced at Lynn's equally dispirited face he roused himself.

"This is exactly what we're looking for," he said with a forced smile. "Firewood waiting for us and a clean shoreline without mosquitoes."

"But we haven't found Alan," said the still motionless girl.

"We'll find him," was the other's quietly assured response to that. After getting out his mooring line he rummaged through his cabin equipment for a jointed rod which he kept there. He ignored Lynn's clouded eyes as she sat watching him make ready his rod and tackle. "There's fish in these waters," he announced. "And if you'll get things ready we'll have a beauty or two for supper."

"But we haven't found Alan," she repeated to herself as she mechanically set about her work.

The question of Alan's whereabouts was still in her mind as they took off, the next morning, and headed deeper into the land of stunted spruce boles and empty ridges. A sense of timelessness crept through her as they flew on. Then she saw how the plane was veering eastward and her father was leaning forward to study the course of a river that wound sullenly in and out between the shadowy hills.

"That must be the Anawotto," he called out.

She took her turn at studying the terrain over which they were droning. The Anawotto, to her, looked malignant, like a snake. She found so little that was consoling in its aspects that she was glad when they temporarily swerved away from its ever-changing course and headed for a district of bolder ridges interspersed with lakes that lay like pools of silver in the morning sun. Some of them were small and some of them were large. But the heavier tree-growth along their shores told her they had left the Land of Little Sticks behind them. Some of them, she also saw, were studded with conical small islands. One larger lake held the ghost of an islet in its very center, like a tiny pupil at the center of a wider iris of azure.

"It's you who mustn't take chances," she reminded him.

Lynn's eyes were on that island as they bore down on it. It lost its vagueness, as they drew nearer, and took on a new irregularity of outline. Then she saw it was not a dot of land. It was a gray-winged plane floating there in its bath of blue.

She could feel her heart come up in her throat.

"The ghost plane," she cried aloud.

But the Flying Padre, apparently, had also sighted the gray wings against the blue of untroubled northern water. He turned and circled the lake, dropping lower as he looked.

"It's Alan's plane," he shouted as his pontoons took the water. "That's the Snow-Ball Baby."

Lynn could feel her heart pound as they drifted nearer. But no sign of life came from the plane so lazily dragging at its mooring line.

"That's queer," he observed. "I'll edge closer and climb aboard."

But an abrupt interruption came to that movement.

A rifle barked from the lake bank and a bullet went whining over his head. As he looked up, arrested, a second detonation echoed out over the lake water and a second bullet whined perilously close to his ear. Then a voice, husky but authoritative, called across the water.

"Keep off that plane," it commanded, "or I'll drop you where you stand."

The Flying Padre's eye, searching the shore, made out an unkempt and ragged old figure with a leveled rifle. On a rock point behind him, a moment later, he detected a second bewildered old figure, also with a leveled rifle.

"Keep down," was the Padre's warning cry to the girl in the cabin.

"These fools are firing at us." Then he turned to the threatening figures on the shore. "Stop it, you idiots."

"Not on your life," was the husky shouted response. "You back away from that plane and taxi in here or we'll blow you out of the water."

The indignant man of medicine considered that threat. But it failed to stir him into action.

"Where's Alan Slade?" he demanded.

"What's that to you?" was the shouted response.

"We're friends," called back the Padre, "who want to find him."

He could see the rifle-barrels, at that, waver and lower.

"Then you'd best swing in here and prove it," was the call came back to him.

"It's all right," Lynn was saying from the cabin hatch. "They must be Alan's old miners from the Kasakana."

She dropped into the pilot's seat and started the motor, her still indignant father balanced on one of the floats as she veered about and taxied in to the shore line.

There, as he waded ashore, the old man with the rifle regarded him with a skeptical eye.

"Now, who're you?" was that old man's prompt challenge.

"That's not important," announced the Flying Padre. "I'd rather know who you are."

"We're a couple o' peace-lovin' lone-panners who've been prospectin' back on the Kasakana. I answer to the name o' Zeke Pratt. And this is my bunkie, Minty Buckman."

"Then you know Alan Slade," cried Lynn.

"Sure, we know Alan," conceded the embattled Zeke. "And that boy's a bit of all right. But what's worryin' us is why he ain't back here with his plane. She's been sittin' there empty, day after day, and I don't like the looks o' things."

"That's why we're guardin' her," concurred Minty.

"From whom?" questioned the Padre.

"From them damned swan-hunters who're up to some devilment round here we can't figger out. They've got a landin' dock and a plane o' their own hidden under a pile o' brush over the hills there. And when we tried to sleuth 'em out they started slingin' lead like a bunch of Sioux."

The Flying Padre's face remained thoughtful a moment.

"Could you take me to the camp

of these people with the plane?"

"Sure," said Zeke, "if you're ready to dodge bullets on the way."

"And you have no idea why those people are in this territory?" pursued the Padre.

"From the way they've been strippin' and dakin' and pittin' along the ridges I figgered out they was after gold. But they ain't workin' in the right rock for color."

"Supposing," said the Padre, "they were after pitchblende?"

That failed to impress the two old lone-fire prospectors.

"There's pitchblende in this neck o' the woods all right," conceded Zeke, "but what in heck would they be doin' with it out here?"

The Flying Padre had his own ideas about that. A plane ferrying a ton a trip could carry a ponderable amount of uraninite from that uninhabited interior to tidewater.

"But what good would that do Germany," asked Lynn, "or any other country on the other side of the world?"

From an unmolested port like Echo Harbor, the Padre pointed out, a disguised Japanese whaler or even a furtive Russian freighter could pick up the cargo and quietly carry it on to Yokohama or to Vladivostok, where it could be transhipped and hurried on to the reducing plants north of the Rhine.

"This thing goes a trifle wider than you think," proclaimed the Padre as his gaze went from the two empty-eyed old sourdoughs to the disappointingly unresponsive face of his daughter.

"But this isn't helping us to find Alan," she objected.

The Padre studied the deepened hollow in her cheek and the sharpened line of the valorously poised chin.

"I know it," he agreed, "but one seems to weave in with the other. And I'm wondering which approach will bring the best results."

"If you take the one we took," interposed Minty, "you'll git results all right. You'll git 'em in the shape o' four-ounce slugs o' lead."

"Then we'll look 'em over from the air first," said the Flying Padre. He turned to the two ragged figures beside him. "Have you old-timers ever flown?"

"Sure," was the prompt response.

But again Lynn interrupted.

"That's what we should both be doing," she insisted. "While you take Alan's ship I could take ours and be looking for him."

"Where will you look?" asked her father.

"I can't be sure yet," was her none too satisfactory answer. "But he wouldn't be away from his ship without some good reason." She stared out over the lonely spruce ridges. "And he'd come back to it if he could. That means he's somewhere out there waiting for us."

The Padre stood silent a moment. She had, as a rule, been singularly dependable. And the best antidote for anxiety, he had learned, was activity.

"All right," he acceded, "you can't stand around idle at a time like this, any more than I could. But keep some system in your scouting." He smiled at her prompt nod of understanding. "And no over-night stuff, remember."

"Not if I can help it," said Lynn's father. "We can't afford a second searching party in these wilds. Mark this as your base and keep a close check on your course. And if the weather gets bad, head back here. One of these men will be keeping a signal-fire going. But the important thing, remember, is to spot your landmarks and know your lakes."

He found something reassuring in the girl's quiet smile.

"It's you who mustn't take chances," she reminded him.

For just a moment the firm young jaw quivered with some darker emotion. "You're all I'll have left, if anything's happened to Alan."

The Flying Padre forced a laugh. "I'm still betting on that bush hawk," he stoutly maintained. "He comes out of too hard a school not to know how to take care of himself. And today, remember, is the tomorrow we worried about yesterday."

## ABRAM: A PIONEER IN FAITH

LESSON TEXT—Genesis 12:1-9; Hebrews 11:8-12.

GOLDEN TEXT—Fear not, Abram: I am thy shield, and thy exceeding great reward.—Genesis 15:1.

Without faith it is impossible to please God (Heb. 11:6). The opposite is also true, namely, that faith always pleases God. As we read the Bible and consider Christian experience, it is evident that God is constantly longing to show Himself strong in behalf of them who believe Him (II Chron. 16:9).

Abraham was not the first man to walk by faith. Before him came such men as Abel, with his acceptable sacrifice; Enoch, with his walk pleasing to God; Noah, who believed and obeyed; and others.

But Abraham was nonetheless a pioneer of faith. He had many other noble characteristics, and was a man of such distinction that his memory is venerated by Jews and Mohammedans as well as Christians. Yet his real claim to an outstanding place in history is that by faith he responded to God's sovereign act in choosing him to begin a new nation, to be His chosen people.

We note two important points about faith:

## 1. Faith Makes Demands.

In the very nature of things, faith calls for action consistent with belief. "Faith without works is dead" (James 2:20), that is, not a real faith at all. In Abraham's life (and in our life) faith calls for

## 1. Separation (Gen. 12:1).

"Get thee out" was God's command to Abraham. To accomplish His divine purpose God had to take him out of the heathendom of his fathers, and start anew. It is His command to His followers today, "Come out from among them, and be ye separate, saith the Lord" (II Cor. 6:17).

Who will doubt that this is the crying need of the church today, for instead of the church being in the world seeking to win it to Christ, worldliness has come into the church and devitalized its message.

## 2. Obedience (Gen. 12:4-6; Heb. 11:8, 9).

"Abram departed, as the Lord had spoken" (v. 4). He didn't know where he was going, but he did know who had called him, and he went. Faith knows God, and obeys Him without hesitation and without reservation.

Obedience is a virtue that needs to be revived, in the home, in school, in society, and especially in our relation to God, for there surely should be no disobedient children in the family of God. He merits and expects obedience.

## 3. Trust (Gen. 12:7-9; Heb. 11:10).

An assured reliance on the Word of God is a part of faith. God made a promise to Abraham. He accepted it, and worshiped. Here was no questioning, no bargaining, but simple trust in God's word. In fact, there was anticipation of even greater things to come (Heb. 11:10).

We need men of vision and that means we need men who, by faith can see the unseen, who can see "a city which hath foundations" even in the midst of destruction and disorder. "In God We Trust" must be more than a motto on our coins if America is to survive.

## II. Faith Brings Results.

The world wants to know if a thing works before accepting and approving it. Well, faith really does work! It brings

## 1. Blessing (Gen. 12:2, 3).

God is always on the giving hand. "I will bless," was His word to Abraham, not only for Abraham himself and for the great nation of which he was to be the father, but to "all the families of the earth" (v. 3). How gloriously that promise was fulfilled in the coming of Christ our Redeemer, who also was a "son of Abraham" (Matt. 1:1).

## 2. Protection (Gen. 12:3).

"I will curse him that curseth thee." That promise to Abraham is still binding and valid. God is not through with Israel. The nations and persons who have vented their hatred upon the children of Abraham need to take notice.

We need to be reminded that God's protecting care is just as sure over us who bear His name. We too are "safe in Jehovah's keeping," even in what is perhaps the darkest hour in the history of the world. Faith in God brings to us the protection of His almighty hand.

## 3. Fulfillment of Promise (Heb. 11:11, 12).

The entire promise to Abraham hinged on the birth of a son, something which was, humanly speaking, beyond all possibility. But because Sara, joining Abraham in believing God, "judged him faithful who had promised," it came to pass.

"With God all things are possible" (Matt. 19:26). He delights in doing the impossible in response to the faith of His children. Apart from that fact we might be fearful, yes despondent, but "with God" we say again, "All things are possible."

men in the army for aviation under the CAA program and at present is training a group for eight weeks.

Mr. Boeyer has a new group each eight weeks. He is fortunate enough to be able to return home every night. The regular meeting of the Bremen Victory 4H Club was held last Friday evening at the home of Patricia Tolén.

We made the final plans for our Achievement Days to be held August 4 and 7. Our leader told us of the prizes and other things that we could earn with our projects.

The next meeting will be held at the home of Norma Bartholomew, Friday, July 29.

July 13, 1942

Dear Miss Rogers:

Although I'm not very well acquainted in Tinley Park, I enjoy the paper that is being sent to me.

I also received the cigarettes and shaving kit, thank you very much, it's real nice to get things like that.

I am stationed at Keesler Field, Miss. which is on the Gulf of Mexico and I have been here for eight months. The weather is hot in summer and mild in winter. The south is different from the north in many ways. It's a beautiful country and the people seem to be easy going and more friendly.

Here in the army we get the best of everything. We have a new USO building which provides all sorts of recreation for the soldiers, including movies, dances, locker rooms for swimming and rowboats for the soldiers use, so you see we have many ways in which to spend our leisure time.

Since I've heard from you my address has been changed although I am still at the same field.

Cpl. John Van Brussel, 59th Base Hq. and Air Base Sq. Keesler Field, Miss.

July 13, 1942

Dear Friends:

How is everyone back in Tinley Park by now? I am feeling fine. The weather is very hot here. We only had one little shower of rain since I came to this place.

Believe it or not I had a twenty four pass last Friday, so three of us boys went to Salt Lake City.

We got a ride from the field all the way to Salt Lake City and on the way back we caught three more rides.

We had a swell time there but it is nothing like Chicago. A twenty four pass isn't much better than nothing.

Thanks very much for the cigarettes and also the other things you sent. Thanks a lot for sending the Tinley Park Times to me out here. You may have heard over the radio of a ship cracking up down here. That was one of our own ships. But no one knows what the trouble was. The maintenance work was in A1 shape. So they say, "it is just one of those things." Well I am not much of a letter writer so I will close for now. Thanks again for everything.

Erv Batterman

7 15, 42

Citizens Club, Tinley Park, Ill.

Dear Folks:

I received your package and thank you very much. This letter will have to be very short as I have to go to work. I am now a flight instructor for the army and I'm kept pretty busy. We fly about six hours a day and of course every student must have a certain amount of ground work also.

This takes up considerable time and we are working seven days a week. I might not see any action on this job but my students will and I intend to give them all I've got so they will be the best. Thanks again and Good luck to you all.

Very truly yours,

S. Sgt. John E. Gotham

7 16, 42

Citizens Committee:

Received our kit and cigarettes and it was really fine. I am getting your paper every week and it's really swell.

Now that I'm in Nebraska I don't know how the hospitality is because I haven't been in town yet to find out. But don't worry as soon as I get in well it won't take me long to find out how it is. When I was in St. Louis, Missouri it was swell.

The people treated us fine, Bob and I are still together. We'll be together for the next 18 weeks for sure. That's how long we'll be going to school. We went over and found Art Lehman. Boy it's like home here with almost the whole gang here.

Well I'll have to close now so I will write again soon. We're waiting to hear from everybody home. Every thing is fine here.

Yours till we meet in Australia.

Pt. Jack C. Freitag, 19th Technical School Sq., Barracks 604, Lincoln Air Base, Lincoln, Nebraska

## TINLEY BOYS 4H NEWS

The fourth regular meeting of the Tinley Boys 4H club will be held August 5 at 7:30 at the home of Laddie Stover 6642 175th st.

—J. Alder Dean, Publicity chairman

## WBA NEWS

Thursday, July 23 the regular meeting of Sunset Review 160 was held in the village hall. After the meeting bunco was played with prizes furnished by Mrs. Helen Johnston hostess for July.

Due to the next regular meeting falling on one of the carnival nights it has been changed from August 13 to August 6 and will be at the home of Mrs. Alfreida Willman hostess for August.

The Bremen Home Bureau held its regular meeting Tuesday, July 28 at 1:30 p.m. at the home of Mrs. Fred Willman, 17817 Harlem Ave. Mrs. Marie Cornelius, conducted the Major demonstration on Stain Removal and members participated by removing a number of stains. The minor topic on sugar substitutes was presented by Mrs. J. Boner.

Mrs. Boner resigned as chairman, of the unit and Mrs. H. S. Bartholomew was elected to fill the vacancy. The unit accepted an invitation from the Worth unit and plans to attend a picnic with them at Sauerbiers grove August 9. The unit was also invited to be guests of the Victory 4-Hers on their local achievement Day August 4 at the Bartholomew home.

Mrs. Mary Panozzo attended as a new member and Mrs. R. T. Harding was a guest.

## At The Roxy

Tracing out across the blueness of the heavens comes the winged hellriders of the skies, peeling off into a power dive of thrills and romances in "Captains of the Clouds", upholding the superb performances of James Cagney and Brenda Marshall, with the Royal Canadian Air Force, which will be featured at the Roxy Theatre, at Lockport, Sunday, Monday and Tuesday.

Miss Marshall is seen as a French-Canadian girl who plays havoc with the hearts of the fighting pilots, and this is her first time before the technicolor cameras, which, also, adds much to the magnificence of this A-1 sky drama.

"The Invaders", a drama of an epic manhunt of five Nazi U-boatmen in Canada, with Raymond Massey, Leslie Howard and Gynis Johns, will be featured at the Roxy Theatre, next Wednesday and Thursday.

## NOTICE OF CLAIM DAY

CHRISTIAN SCIENCE CHURCHES

"Truth" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 26.

The Golden Text was, "The word of God is quick, and powerful and sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of the joints and marrow, and is a discerner of the thoughts and intents of the heart" (Heb. 4:12).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Give ear, O ye heavens, and I will speak; and hear, O earth, the words of my mouth. Because I will publish the name of the Lord: ascribe ye greatness unto our God. He is the Rock, his work is perfect: for all his ways are judgment: a God of truth and without iniquity, just and right is he" (Deut. 32:1, 3, 4).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In Science, Truth is divine, and the infinite God can have no likeness. Did God, Truth create error? No! 'Doth a fountain send forth at the same place sweet water and bitter?' God being everywhere and all-inclusive, how can He be absent or suggest the absence of omnipresence and omnipotence? How can there be more than all?" (P. 287)

## Tinley Park News

Mr. and Mrs. Wm. Wannemacher left yesterday by motor for North Dakota to visit his sister who is ill.

An Executive Board meeting of the Tinley Park Woman's club was held Tuesday afternoon in the home of Mrs. Omar Ebenhack to complete arrangements for the years program.

Mr. and Mrs. Chas. Schantz announce the birth of a daughter, Thursday, July 23. The baby has been named Charlene Magdaline.

Mr. and Mrs. H. P. Schmidt of Oak Park visited in the Clemens home Friday.

## FRANKFORT

Mrs. Herbert Kohlhaugen

St. Peter's Evang. and Reformed church are planning to celebrate their 75th anniversary this fall. They are to publish a book in honor of the occasion. They have selected Sunday, August 23rd to take pictures for this book. Regular services will be held and those who wish can bring their noonday lunch and eat it in the social room. In the afternoon a photographer will be present to take group pictures. All members of the congregation are invited to be present. If it should rain on that date the taking of pictures will be postponed to Sunday, August 30th.

Dorothy and Ruth Bettenhausen, Betty and Wilma Mark, Betty, Vernon and Russell Carroll attended the Methodist Youth Fellowship meeting at the New Lenox Camp grounds July 19 to 26. During this time Rev. Malek taught a class his topic being "Prayer and the Bible." The Methodist Youth Fellowship group will enjoy an evening party

in the Bettenhausen home August 6. The W. S. C. W., of the Methodist church will meet Thursday, August 6th in the home of Walter Carlson at an outdoor gathering at 1:30 p. m.

About fifty members of the Brueggemann family gathered in Highland Park, Joliet last Sunday for their annual reunion. At noon a basket luncheon was enjoyed. All kinds of games were played. The oldest man present was Charles Brueggemann and the oldest lady was Mrs. Rosa Koch. The youngest child was Karen Elaine Gill. The newly elected officers are: Eugene Brueggemann, president; Mrs. Harry Brueggemann, sec., and treas. Mrs. Roy Hoffmann, program chairman. They plan on meeting again on the fourth Sunday in July, 1943 in Highland Park.

Don't forget to attend the dance in the Frankfort gym tonight, July 31st given by the Music Maestros. Dancing from 9 p. m., to 1 a. m.

Mr. and Mrs. George Minger entertained the following guests in their home last Sunday: Mr. and Mrs. David Forsythe and Miss Lucille Luhring of Manteno and Mr. and Mrs. Clarence Waldvogel and son.

The Baumann family entertained last Sunday: Mr. and Mrs. Leo Whitcomb of Marion, Indiana, Mr. and Mrs. Otis Whitcomb of Matteson and Mr. and Mrs. Arthur Lambrecht and Dickie.

Mr. and Mrs. Emil Lenhardt and Harold, Mrs. Herbert Kohlhaugen, Russell and Annette, Miss Marjorie Hasenjaeger were guests at Marna Lee Harnack's 3rd birthday party on Aug. 21 in New Lenox.

Mr. and Mrs. Alvin Kohlhaugen, Marilyn and Donald of Bloomington and Mr. and Mrs. Harry Kohlhaugen of New Lenox visited the Herbert Kohlhaugen family last Saturday.

Mr. and Mrs. Lawrence Woodman are spending a week's vacation with Dr. Hedges family in Wisconsin.

Henry Eisenbrandt returned from Knox, Ind., where he visited his sister and husband.

Mrs. Elizabeth Soldan of Chicago spent last week end in the Conrad Wilson home.

Frank Wilson and grandson Bobby King of Chicago spent Sunday with Conrad and Emma Wilson.

The soft ball team played another thriller on the local diamond July 23 when they defeated the

Flintkote team of Chicago Heights by a score of 11 to 10 in a 10-inning game. They played a garage team of Joliet Monday and won 17 to 15. Their next game will be Aug. 3 with the Speed Boys of Joliet.

The Ladies' Aid of St. Peter's Evang. and Ref. Church held their monthly meeting Thursday, July 30. The following members served a hot supper: Mesdames Wm. Lankenau, Jerry Lankenau, Emil Lenhardt, Wm. Lorenzen, Richard Oetter, Hy Luhring, Leroy Mager, Ezra Marti, Art Marti, Anna Kampe and Albert Minger.

## Marley

Virginia Sass

The Marley Missionary Society met last Thursday in the parlors of the Marley church. Mrs. Arthur Lauffer, president, presided. An interesting program was presented by Mrs. Thomas Hagood. Supper was served at 4:30. Hostesses were Mrs. Everett Bell, Mrs. Walter Haas, Mrs. Ralph Bell and Mrs. James Bell. Mrs. Al Hinz of South Haven,

Michigan who has been spending the past week with Mrs. Ruth Morrison, was called home last Friday by the serious illness of her husband.

Pvt. Jerome Paddock, of Ft. Leonard Wood was a guest of his uncle and aunt, Mr. and Mrs. Randall Storm, Sunday.

Mr. and Mrs. Dewey Ruettiger and family have moved from Memphis, Tenn., to make their home here. Mr. Ruettiger is employed in Joliet.

Frank Savage and Mr. and Mrs. Albert Marti were entertained Sunday in the home of Mr. and Mrs. Willard Rowley in Homer.

Mr. and Mrs. John Cutler spent the week end with relatives in Plainwell, Mich. Mrs. Madge Storm who has been spending several days in Michigan returned with them.

Charles Dale, Jr., left last Thursday for Camp Grant, where he entered the armed service.

Mr. and Mrs. Robert West and daughter of Lockport were guests Sunday of their aunt, Mrs. Minnie Blodgett.

Mr. and Mrs. Mervin Moore and daughter returned Friday night from a motor trip thru Texas and Mexico.

Mrs. Mary Marshall entertained several friends at a luncheon in her home last Tuesday. Guests were Mrs. Synga McGuire of Beverly, California, Mrs. Betty Gunderson, St. Paul, Minn., and Mr. and Mrs. Sigruud Olson of Joliet.

Mrs. Dale Peterson and sons and Edwin Brain of Chicago spent Saturday afternoon in the George Peterson and Glenn Peterson homes.

Mrs. Edward Sproat and daughter Bonnie Ellen, returned Saturday from Silver Cross hospital.

Mr. and Mrs. Stuart Vanderbilt were guests Saturday evening of Mr. and Mrs. Alfred Sproat.

Guests Wednesday of Mrs. Mary Marshall were: Mrs. Charles Kinne-man of Decatur, Mrs. L. LaFountain and daughter and Mr. and Mrs. Clair Newberry.

Miss Ethel Rapson of Hoopston has been spending the past two weeks with her parents, Mr. and Mrs. T. Rapson.

Mrs. Maggie Day, Mr. G. W. Bush, Mr. George Peterson, Mrs. Elizabeth Haley, Miss Agnes Haley and Mrs. Loren Sass attended the funeral services for Mrs. Julia Wheeler at the Plattville Lutheran church last Tuesday morning.

Mr. and Mrs. Willis Seldon of Lansing, Michigan and Miss Barbara Storm of DeKalb were guests Wednesday of Mrs. Elizabeth Haley.

Mrs. Ione Farr of Orland Park is spending several days in the home of Mr. and Mrs. Edward Sproat.

Members of the Marley Sunday Evening club will have charge of the church services in the Marley church this Sunday. Church will begin at 11 o'clock. Sunday school at 10 o'clock with the superintendent, Edward Stevens in charge. The Sunday Evening club will meet at 8 o'clock in the evening.

Mrs. Mervin Moore attended a bridal shower in honor of Miss Beverlee Boyd in the home of Mrs. Frank DuBois in Joliet Sunday afternoon.

Rev. Thomas Hagood will travel to Greenville, Miss., where he will substitute for a pastor in a church in that city Sunday.

Adolph, Benito and Hirohito—the three blind mice. Make them run with ten percent of your income in War Bonds every pay day.

## Farmers Do Not Count the Hours

"Seventy-five-hour weeks are rules and not exceptions for this spring and summer."—Earl J. Cooper, Country Gentleman.

No, Mr. Cooper is not referring to factory labor. The seventy-five-hour workers are the farmers of America, whose count of time is based upon daylight and its productive possibilities rather than on rules, schedules and agreements.

"The crops must be sown and harvested," continues Mr. Cooper. "And so they will be. The 'men of the land' have never failed in any emergency."

And he might have added that these tireless tillers of the soil are faithful champions of the true American idea of unlimited effort under the banner of free opportunity.

## Who Owns Business?

The American Telephone & Telegraph Company has 634,151 stockholders, of whom 598,600 own 100 shares or less. At the end of 1941, General Motors had 410,759 stockholders, of whom 374,276 own 100 shares or less. Chicago and North-western Railroad has 16,696 stockholders, of whom 14,438 own 100 shares or less.

Of the 165 larger corporations of the country, the average taxes per share for 1940 was \$3.92, while the average dividends per share was only \$1.91. The entire 165 companies had 5,686,689 common stockholders and 3,490,601 employees at the close of 1940.

These facts give a vivid picture of who is vitally interested in American business. The millions of stockholders owning less than 100 shares are farmers, small business men, merchants, workers and home owners, who have practiced economy, saved a part of their income and invested in these stocks. They are all vitally interested in the success of their investment and the protection which it affords for them and their family.

Business management owes these small stockholders the duty of keeping them constantly informed of problems of taxation and management policy which are constantly up for solution year after year.

"We the People." These small stockholders are "we the people." They are the constituents of legislators, both state and national. They must know all of the facts, if they are to vote intelligently in either political elections or elections in their own company.

Our free institutions, our problems of taxation in the winning of this war and in the peace which shall come after, in fact our whole American way of life, can only be solved correctly if "we the people" know the facts.

There is no mystery about capital or the capitalistic system. A capitalist is a man who has chosen to save and invest his money instead of spending it. In its broad sense, wealth is nothing but surplus earnings or wages saved and piled up in excess of current spending. All capital starts in a small way, and grows through wise use in productive channels.

Smart management of business keeps its small stockholders constantly informed of current problems of taxation and managerial policy. Many of these small stockholders can give wise advice in periods of emergency if given a chance.

## HOW MOTOR CARS ARE GOING—OUT!

Figures compiled by rubber statisticians on the basis of government estimates are published by Business Week to show the rate at which the number of automobiles on roads and streets will decline if no new tires are available and no recapping is done except for priority cars driven by doctors, officials, police, etc. Here are the estimates, starting with cars in use last year:

| Year | Non-Priority Cars | Priority Cars | Total      |
|------|-------------------|---------------|------------|
| 1941 | 27,300,000        | 6,000,000     | 33,300,000 |
| 1942 | 26,600,000        | 6,300,000     | 32,900,000 |
| 1943 | 21,800,000        | 6,500,000     | 28,300,000 |
| 1944 | 12,100,000        | 6,800,000     | 18,900,000 |
| 1945 | 3,900,000         | 7,000,000     | 10,900,000 |

The National Highway Users Conference estimates that one-fifth of the passenger cars will be off the roads at the beginning of next year.

While the number of automobiles now in use is only 700,000 less than last year, their service has dropped about 50 per cent. And it is estimated that by the end of this year there will be a 75 per cent decrease in mileage on rural highways.

Rubber—a Vital Material. Such figures bring home to us with great force the extent to which we depend upon rubber.

Going to and from work and necessary business travel represent about three and a half times the passenger mileage of other forms of transportation. The percentage of necessary mileage is higher in rural areas. Farmers average a little less than 6,000 miles a year, but two-thirds of their driving is necessary. Salesmen average nearly 19,000 miles a year, and four-fifths of their mileage is for business purposes.

The need for restraint in the use of the automobile is too clear to require much comment. Saving miles is just another way to help win the war, and thus preserve the way of life which gave America first place in private automobile ownership.

# HOMER

By Mrs. Kopelman

Mr. and Mrs. Wm. Zeiseimer of Maple road received a cable from their son, Staff Sergeant Virgil Zeiseimer, stating he had arrived safely in Ireland.

Mr. and Mrs. Joseph Pentosky are building a house on 159th St., next to the latter's parents, Mr. and Mrs. Albert Schwaab.

Miss Thyra White has returned to her home in Manteno after a 2 weeks visit with her father and sisters here. Mrs. Robert Jungles and Mrs. Frank Parker accompanied Miss Thyra to Manteno.

Miss Lois Jungles is employed at the Sailplane factory.

Arden Reiter, Jr., of Lockport is a guest in the Lloyd Reiter home. Jackie Sing of Joliet is spending the summer with his uncle and aunt, Mr. and Mrs. George Bump.

Adella and Arlene Reiter and Gloria Welter are enjoying a two week's outing at the camp near Troy sponsored by the Industrial Health Center of Joliet. Miss Isabel Anderson is an instructor there.

A marriage license has been issued to Wilbur Cearfoss of Homer and Miss Dorothy Koenig of Oak Forest.

Pvt. Jerome Paddock who is stationed at Fort Leonard Wood, Mo., spent Sunday with his parents, Mr. and Mrs. Fred Paddock. Sunday afternoon, Mr. and Mrs. Paddock, Geo. Milton and the Misses June and Monna Milton took Jerome as far as Lincoln, Illinois on his return trip to camp.

Announcement was received in Homer the past week of the marriage of Miss Mildred Herst, Plainfield Ave., Joliet to Walter Gray, July 6 at Palmyra, Mo. They are touring the Western States until August first after which they will be at home to their friends at 755 Ruby Street, Joliet.

Mr. and Mrs. Howard Mason are the parents of a daughter born July 22nd at St. Joseph's hospital.

Mr. and Mrs. Clarence West of Chicago are the parents of a son born July 2nd. Clarence is the son of Fred West formerly of Homer.

Mr. and Mrs. Emil Pfeiffer of

Beloit, Wisconsin were recent guests of Mr. and Mrs. John West.

Little Gwendolyn Hanson of Chicago is vacationing at the home of her grandmother, Mrs. Lee Burnett.

The Community Club party will be held in the Homer town hall Friday night. Cards and bunco will be played. The committee in charge is Mr. and Mrs. Walter Konow, Mr. and Mrs. Peter Konicek.

Several relatives and friends of Homer attended a miscellaneous shower in Joliet Saturday evening in honor of Miss Helen Ott who was married July 25th to Joseph Gudar of Delwood Highlands. The wedding took place at Omaha, Neb. The honored guest received many beautiful gifts and a purse of money.

Sunday evening a good crowd attended the dedication services of the service flag at the Homer church. The flag had twenty-nine stars, which represented Sergeant Frank Alis, John Bengston, Leonard Bertelsen, 1st. Lieut. W. C. Bischoff, Walter Bokoski, 1st class private, Gordon Boyce, Lawrence Burde, Leo Costello, Charles Dale, Albert Dalpos, Ernest Dalpos, Joseph Dalpos, Corporal Edward Dunn, Michael Fasana, Clarence Frank, John Frank, Everett Holm, Dan McGuire, Jerome Paddock, Technical Sergeant Walter Purdy, Leo Putz, Owen Rowley, Harold Schwab, Harry Smith, Leonard Splitt, Joseph Stamm, Liut. Colonel John Tilsy.

The following program was well presented to an appreciative audience. Prelude, Mrs. Robert Burch; Alvin Welter and John Winke; song, "Star Spangled Banner"; Prayer, Rev. H. Finley; Duet Mr. Ernst and Mr. Bismark of Lockport;

reading, Miss Lois Jungles; America the Beautiful, choir; reading, Miss Shirley Burch; solo, Mrs. Louis Storm Nelson; reading, Miss Eleanor Kopelman; solo, Gwendolyn Hansen; address, Rev. Finley. Dedication, Rev. C. E. Wolsted. Song, "This is Worth Fighting For" by the choir.

Leo Putz, a soldier home on furlough was present and was asked to stand and received a hearty applause.

Mr. Finley then asked that the parents or close friends of the soldiers notify either Mrs. Robert Jungles or Mrs. Fred Kopelman if the ranks of the boys were given incorrectly as an honor roll is to be made in the near future.

Mrs. Merritt Cagwin who has been seriously ill is improving.

Mr. and Mrs. Henry Winke received word from their son John who is stationed at McChord Field, Tacoma, Washington, that he has been promoted from Corporal to Sergeant.

## War Production and Electric Power in Northern Illinois

Steel that has been melted in a modern electric  
furnace pours from this huge ladle—steel for the  
manufacture of equipment needed on the land, on  
the sea and in the air to win the war.

Our first responsibility is to supply a constant  
flow of electric power for war production in the area  
we serve, and our facilities are dedicated to this task.

## ORLAND PARK

IN MEMORIAM

Cooper. In loving memory of our beloved son, Raymond Merrill Cooper, father of Pvt. Geo. Merrill Cooper, and Floyd Edwin Cooper, who departed this life August 4, 1924.

Like a ship that's left its moorings,  
And sails bravely out to sea—  
So someone dear has sailed away  
In calm serenity.

But there's promise of a greater joy,  
Than Earth could have in store,  
For God has planned a richer life  
Beyond the Unseen Shore.

MR. and MRS. EDWIN COOPER  
La Grange, Ill.

The Orland Girls 4H club held their sixth meeting at the home of Marilyn Pihl on July 21. The program consisted of demonstrations, talks and music. The achievement program was discussed. Plans were made to attend the style review at Blue Island August 7.

After the meeting games were played and lunch was served by Mrs. Pihl.

Mr. and Mrs. Harold Thomas, Mr. and Mrs. Ernest Sayre attended the funeral of Mrs. Sayre's aunt Mrs. Katie Bonnett at Monon, Ind. last Friday.

The Orland Park Red Cross Sewing Unit met at the home of Mrs. Richard Miesse, for an all day session Wednesday, July 22. Seventeen ladies from Orland Park and six ladies of Chicago, friends of Mrs. Miesse were present and a considerable amount of sewing and knitting was accomplished. A dainty luncheon was served at noon and during the afternoon cooling lemonade helped stimulate the workers. Mrs. Miesse proved an admirable hostess and everyone enjoyed the day very much.

The next meeting will be held in the home of Mrs. Albert C. Mann, 151st and West Ave., on Wednesday August 5th. All those who wish to attend are requested to meet at the home of Mrs. Ella Loebe at 10:30 a. m. In order that the necessary luncheon arrangements may be made, all those who intend to be at the meeting should notify Mrs. Loebe by next Monday.

For the balance of the summer, the Red Cross Sewing class will meet in the Orland Park school every Wednesday. Work will begin at 10 a.m. and everyone is requested to bring their own sandwich and plan to stay all day. Every lady in the community who can sew or knit is invited to attend these sessions and it is hoped to have a large corp or workers to help in this essential work.

Mrs. Jennie Clark has returned to her home at Allegan, Mich. after a three weeks visit with her sister, Mrs. Ella Loebe of Orland Park and with other relatives in Palos Park.

The 8th District meeting of the American Legion as held in Blue Island last Thursday. Orland Park Post was represented by Commander Geo. Cox, Adjutant S. S. Knox, Chas. Ferry, Herman Nicolai and Ray Myrick.

Orland Boy scouts Virgil Butler, John Rawland, Ernest Sayre and Richard Pihl left July 26 to spend a week at Camp Blackhawk, the Boy scout camp in Michigan. John Rawland will stay 2 weeks.

Anna Mae Butler, daughter of Mrs. Richard Farr has returned to Elbow Lake, Minnesota with her aunt Mrs. Erwin Woessner, who had been a guest at the Farr home.

June O'Brien granddaughter of Mrs. O. M. Farr is spending a few weeks in Orland and is attending the Vacation Bible school at the Methodist church.

Marilyn Sayre has returned home after spending ten days with her grandparents, Mr. and Mrs. D. B. Murphy in Tinley Park.

Mrs. Elsie Yunker and sons entertained a few friends and relatives Sunday July 19. Those present were: Mr. and Mrs. Paul Beutner of Chicago, Mr. and Mrs. Roy Soehren and son George of LaGrange, Mr. and Mrs. Bert Brindley, Leonard Burns, Elmer Rogers and Harold Rogers, Mr. and Mrs. Frank Baker all of Orland Park. Dinner and supper were served and a very pleasant afternoon and evening was enjoyed.

Dr. and Mrs. W. J. Lindquist, Wolf Rd. and 143rd St., entertained friends and relatives last Sunday.

Mr. and Mrs. Raymond Rocky are the parents of a baby boy born July 21st at Lying In Hospital, Chicago. Mother and son are reported fine.

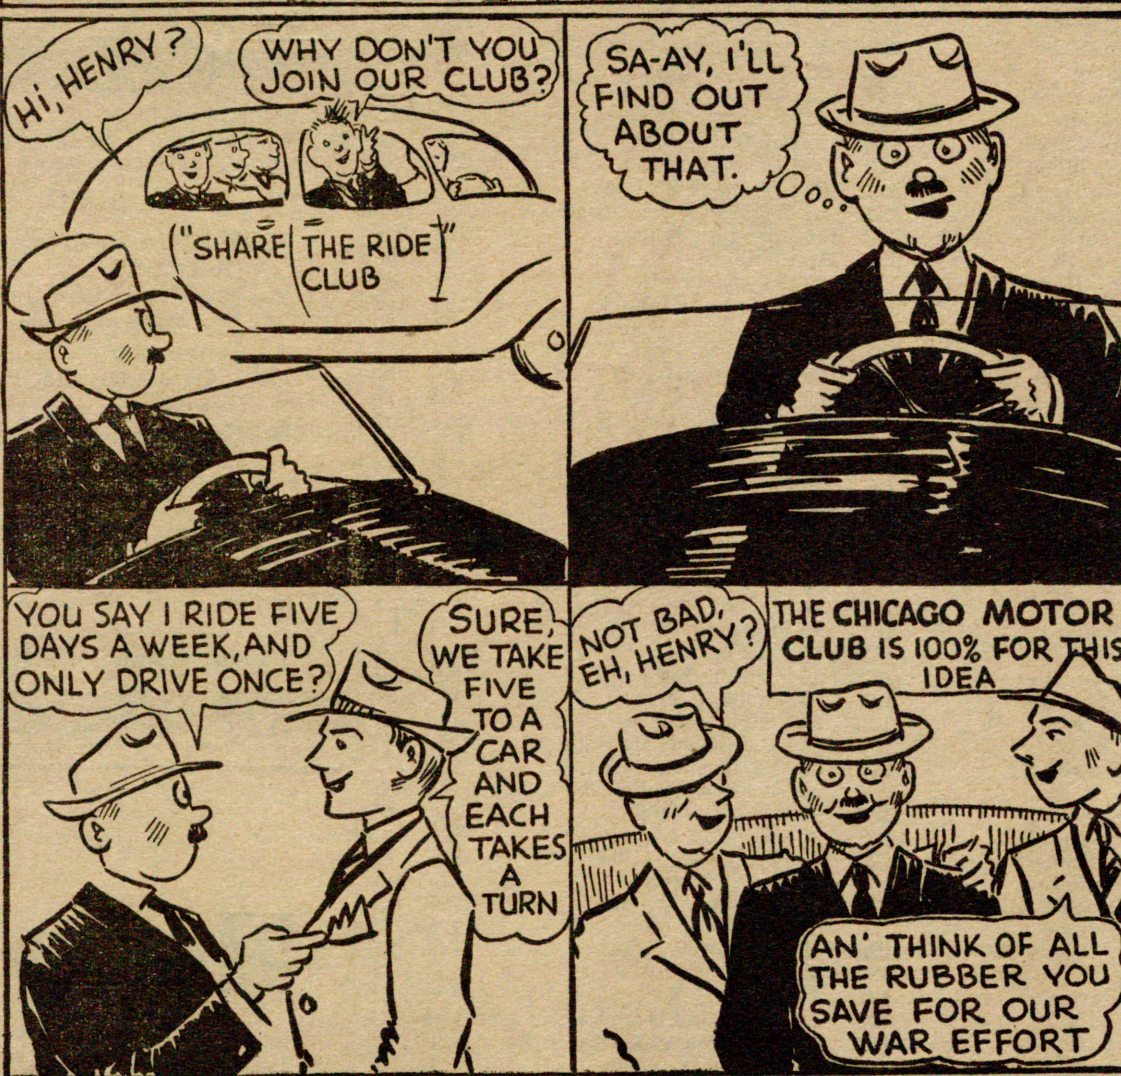

Mr. and Mrs. Geo. Thelma, Evelyn, sister of Mrs. Thelma, Mrs. Thompson and son Wayne have returned to their home in Waucoma, Ia. after a week's visit with the Walter Yunker family. Mr. Thelma is a cousin to Mrs. Yunker. They visited the Brookfield zoo and saw the sights of Chicago.

Mrs. Ernest Sayre and Mrs. Harold Thomas of Orland Park, Mrs. D. B. Murphy, Mrs. Ruth Bacon, Mrs. Alfreda Willman, Mrs. Nellie Bernardini, Mrs. Helen Johnston, Mrs. Mary Isreal Tinec Park, attended the banquet of the Woman's Benefit Association held at the Morrison Hotel July 21 at 8 p.m.

It was the 50th Anniversary of the order, 700 attending the banquet. This convention and anniversary was formerly planned to be held in California, but due to the war it was held in Chicago.

The founder and organizer of this great Order was Bina West Miller, Port Huron, Mich. who was installed as Supreme President. All Supreme Officers were also installed the same evening. Mrs. Thomas, Mrs. Sayre and Mrs. Willman were chosen Ritualistic Color bearers at this installation. All officers, guards, color bearers wore beautiful evening gowns of pastel shades.

## HENRY HUBCAP THE WORLD'S WORST MOTORIST, DOES SOMETHING SMART AT LAST

## Palos Park

Dorothy Robson

The regular meeting of the Handy Helpers 4H club was held Friday afternoon at the home of Beverly Powell. The meeting was called to order by the Secretary Norma Strand in the absence of the president and vice president. The Flag Salute and pledge of allegiance were given. The cooking and clothing abilities of the girls will be demonstrated at a Model Show to be held in Blue Island August 7. A penny march was held and the treasurer collected 58c. Shirley Treadway made a delicious salmon salad. At the next meeting, which will be the Model Show, about 20 4H Clubs will be present. The reporter, Jeanette Reich of Lemont, returned home from her vacation in Michigan and assumed her active duties of the club. Nurse Sevoda gave a health talk on teeth, cleanliness of our bodies and many other interesting and useful things.

Mr. and Mrs. Warren Macauley are the parents of a baby son who was born Sunday afternoon at 3 p. m., at Little Company of Mary Hospital. The babe weighed 8 3-4 pounds, and both the new Mama and son are doing splendidly and I am glad to report that Papa Warren came through without losing any weight but with a very bad case of the jitters.

On August 20 a Dessert Luncheon with bridge and cards will be given by the Woman's Club for benefit of the library. The party will be held at the Village Hall and Mrs. Charlotte Smith and Mrs. W. Thomas will be in charge of food and the whole board will be on the committee.

Mr. and Mrs. Gordon Powell and family, James Heatherwick and Viola Hemstingle and Mr. and Mrs. Art Leiberger of Chicago, guests of the Powells, attended the Roxy Theatre in Lockport Sunday evening.

Don't forget to keep the evening of August 8 an open date for that is the time of the Street Dance sponsored by the Palos Juniors. The dance will take place on the 86th avenue bridge just south of the Hoby Shoppe, music will be furnished by the Swing Kings of Palos.

A short wave radio antenna was found Wednesday in the brush near the intersection of 123rd street and southwest highway. The portable aerial with three prongs and 60 feet of wire was found by a Chicago boy while on a hike. Willow Springs county highway police have opened an investigation and if necessary the FBI of the Federal Communications Commission will be called in.

The Red Cross Work Class met Monday at the Village Hall. Every one who has knitting is reminded to finish it and turn it in as soon as possible.

September 12 is the day of the Palos Flower Show to be held at the Village Hall with Mrs. George B. Ward in charge.

Mrs. John Lowry and family of Midlothian spent a few days this past week visiting the Frank Powells.

August 9 the Sacred Heart church will give its annual chicken dinner at the church on 107th street. Serving starts at noon. Everyone is cordially invited to attend.

Mrs. Esther Oberton (Braasch) of Elgin is a diabetic patient at Silver Cross hospital in Joliet. She was visiting her parents Mr. and Mrs. Gott-

Miss Ada Reilly of Joliet was a guest of Adeline Semmler a few days this week.

George Rinke, Jr., left Sunday morning for Camp Blackhawk, Boy scout camp in Wisconsin for a weeks vacation.

Mrs. George Rinke was taken seriously ill Monday morning in her home and was removed to Silver Cross hospital by ambulance.

Mrs. Edith Mau had a very pleasant surprise Monday evening when her son Charles Mau who is in the U. S. Navy at Moffet Field, Cal., called her on long distance. Charles said he is feeling fine and enjoys his work very much.

Mr. and Mrs. Fred Tibbet of New Lenox were guests in the Wm. Lowe home last Friday evening.

Mr. and Mrs. Gordon Swanson of Chicago, Mrs. Anton Benson, Mr. and Mrs. Edwin Benson and family Rockford, Carol Benson and Elaine Spiess of Mokena were guests of the Swansons at the Gene Autrey Rodeo in Soldiers field Chicago, last Saturday afternoon.

Mr. and Mrs. Hugh Deadmore of Joliet, Mrs. Lasel Graybeal of Hammond, Ind., Wm. Semmler and daughters Adeline and Ada and Mr. Ray Westlund attended the Gene Autrey Rodeo Sunday afternoon.

Pvt. Elsworth McGowney who has been home on a weeks furlough leaves today for camp again.

Mr. and Mrs. Alvin Spiess and family and Mr. and Mrs. Willard Marti and family are planning to spend this weekend in the northern section on a vacation.

Mrs. Rose Steinhagen has as her guest this week her sister Marie and family of Chicago.

Miss Happy Bruder, daughter of Mr. and Mrs. L. G. Bruder of Mokena is head nurse of the Mobile Blood Donor unit which is visiting

cities and villages sponsored by the Chicago Chapter of the American Red Cross. Last week they were in Downers Grove for several days where Miss Bruder met some former friends who gave blood.

This week from July 21 to Aug. 1 they are at the Community high school in Blue Island. Miss Bruder says this is interesting work and she enjoys it although they were short of help, which work can be done by civilians, such as registering etc.

## Big Vaudeville Show Coming

A mammoth vaudeville show will be presented on August 5 at 8:00 o'clock at the Phillips Park Amphitheatre in Aurora, under the auspices of the Send Off Committee of Aurora. This Committee, whose job it is to provide gifts for each inductee or volunteer leaving the Aurora area, is presenting this free show as a means of financing this work. During the intermission, at the middle of the show, fifty Aurora girls will pass thru the aisles, with shiny tin pails, requesting donations for this fund.

Talent from throughout the entire northern Illinois District will be featured and Martin R. O'Brien, owner of Radio Station WMRO, the General chairman of the show, requests that any talented amateurs in this area immediately contact him to arrange for an audition. Bob Kennedy, Ted Lyon and Jimmy Dykes of the Chicago White Sox along with several members of the Detroit Tigers, will also be present, and a national figure, whose name has not been announced will likewise be present.

The Phillips Park Amphitheatre seats 10,000 people and two years ago when the last of the free shows was given in Aurora, each show filled the amphitheatre to capacity. The Aurora police will supervise the parking in the ample facilities available and there will be a reserved section, immediately in front of the stage, for all soldiers, sailors and marines from the Northern Illinois area who may be in attendance.

## Do Not Buy Peddled Bulls

It's just as dangerous to use a "pick-up" out of the stock yard for a dairy herd sire as it is to cross a good corn strain with a random sample from a grain elevator.

That's the advice given to dairymen today by A. F. Kuhlman, concerning bull selection versus bull peddling.

Kuhlman warned against patronizing the bull peddler who drives up to the farm with a truckload of bull calves picked up at veal prices at the stockyards. The peddler usually offers to let the farmer have the young bull for two years for \$10, with the additional offer of picking up the bull at the end of the period.

The farmer actually has to feed the bull a year for nothing before he is ready for service. At the end of the two years, he has grown from a \$10 veal calf into a 1,400 pound beef animal worth about 10 cents a pound, or a total of \$140, all of which is profit to the peddler. Besides, the bull may be of poor stock and the year's services may be of practically no value.

The problem of improvement in any herd over a long period of time is to provide a succession of bulls so that each is better than the preceding one and better than the average of the females on which he has to be used, Kuhlman said. The only way to achieve this is to obtain the services of a bull, the owner of which can supply complete information in the form of production records that indicate the probable breeding ability of that bull.

## THAT IMPORTANT FIFTH

10,796,000  
**FARM WORKERS**

42,604,000  
**NON-AGRICULTURAL WORKERS**

Of the 53,400,000 persons now gainfully employed in America, approximately one-fifth toil long hours on farms to provide food, wool, cotton, shoe leather and other products for the non-agricultural workers, for the fighting forces, for the three million unemployed, and for themselves and families. Can anyone doubt the importance of agriculture in this fight to save America?

## WEBSTER'S EULOGY OF WASHINGTON

"If disastrous wars should sweep our commerce from the ocean, another generation may renew it; if it exhaust our treasury, future industry may replenish it; if it desolate and lay waste our fields, still, under a new cultivation, they will grow green again, and ripen to future harvests."

"It were but a trifle even if the walls of yonder Capitol were to crumble, if its lofty pillars should fall, and its gorgeous decorations be all covered by the dust of the valley. All these may be rebuilt."

"But who shall reconstruct the fabric of demolished government?"

"Who shall rear again the well-proportioned columns of constitutional liberty?"

"Who shall frame together the skillful architecture which unites national sovereignty with State rights, individual security, and Public prosperity?"

"No, if these columns fall, they will be raised not again. Like the Coliseum and the Parthenon, they will be destined to a mournful and a melancholy immortality. Bitter tears, however, will flow over them than were ever shed over the monuments of Roman or Grecian art; for they will be the monuments of a more glorious edifice than Greece or Rome ever saw, the edifice of constitutional American liberty."

## NEW WEALTH IN CORN KERNELS

A kernel of corn is much more than a bit of yellowish grain. It is a complex structure having five distinct parts, each of which stores an important material or mixture of materials.

The five parts may be clearly seen if the kernel is softened in water and cut with a razor blade. From 15 to 20 per cent of the kernel is water; 80 per cent of the remainder is starch and other carbohydrates, protein, oil, fiber and ash.

Already dozens of uses for this storehouse of Mother Nature have been found. Now comes chemistry under the direction of the modern miracle man, the chemist, to open new frontiers for future young Americans to develop.

How many such frontiers may be found depends upon whether we can hold fast to our American way of life, our freedom of opportunity, so that chemistry may search for new uses of old crops and new crops for surplus acres, to make us all happier, more prosperous, more confident in ourselves, more secure as a nation.

## THE CALL FOR ECONOMY IN NON-WAR ACTIVITIES

We are face to face with the most murderous world war ever staged. We are fighting for our American way of life, for freedom, for the security of ourselves and our children.

The boys are at the front throughout the world, and we as free Americans must decide whether it is more necessary for them to have planes, tanks, ships and ammunition than for us to have many public services to which we are more or less accustomed.

Most Americans have decided as to themselves. Family budgets have cheerfully been cut to meet the demands of war-time sacrifices.

In contrast, five important non-war departmental appropriation bills now await senatorial action. These bills, setting aside funds for the fiscal year 1943, carry the following amounts:

|                           |                 |
|---------------------------|-----------------|
| Independent Offices       | \$2,096,139,000 |
| State, Commerce & Justice | 221,077,000     |
| Agriculture               | 648,171,000     |
| Legislative               | 27,582,000      |
| Interior                  | 162,635,000     |

\$3,155,604,000  
These non-war civic expenses are the places where economy is called for. Many such outlays must go the way of family and personal luxuries. Thousands of Americans are for governmental economy in towns, cities, counties, states and nation, regarding all activities that are not essential to the winning of the war.

## Money and Hours

"A billion for defense a week is a fine slogan," says Phil Hanna, writer on economic subjects, "but it cannot be obtained by appropriations alone. If every able-bodied man and woman working a short week or doing unnecessary work were to devote 48 to 54 hours a week to production, we could obtain a billion dollars a week of defense production. But to vote the money without voting the hours of labor to correspond is only to waste time and deceive ourselves."

## American Farming Has Wide Horizons

The present war has already proven the military necessity for the United States to become self-sufficient. The one item of rubber, for which we depend largely upon the Far East, is now a matter of serious inconvenience to almost every American.

The soy bean miracle has been a great help to agriculture in this country. About 2,000 bushels of soy beans were harvested for seed in 1914. The 1941 crop was around 110 million bushels, exclusive of hay and forage. Without the soy bean crop during the period of depression more acres of corn, wheat and oats would have been grown, further depressing the prices of those crops.

There is no longer any doubt that our American agricultural economy can become richer and more inclusive in supplying the needs of American consumers. The war carries an important lesson for farmers, the learning of which will create tremendous opportunities. Possibly at the end of the war we could again buy the products of foreign farmers cheaper than the American farmer could produce them, but production and processing at home will employ American acres, labor and capital. Our supply of these farm products will be under better standardization if produced in this country, and both prices and quantity will have more stability if entirely American.

Farm chemurgists foresee within the next few years the cultivation of new crops on millions of American acres, including vegetable oils and fibers, tung trees, castor beans, camphor trees, bamboo, hemp, cinchona trees (source of quinine), dozens of spices and drug-bearing plants, growths yielding substitutes for rubber and scores of other farm products now imported from foreign producers.

Japan's temporary victories in the Far East have shown how dependent Americans were upon those distant countries for certain foods, drugs and other products. The American system of free enterprise has always shone most brightly when confronted by a crisis. This is a crisis which American science and agriculture will meet and make it possible for future generations to enjoy an America that is entirely self-sufficient.

## The Fight to Preserve America

Gold and silver, the "precious metals" of peace-time, are now officially classed with the non-essentials. They are not employed in making the weapons of war. To mine gold or silver means the use of machinery, tool steel, rubber and men. We need these materials and men in the production of metals which are essentials in war-time, such as copper, lead and zinc. War necessitates changes of many kinds. What Americans must never forget, as one of their most vital problems as soon as the war is won, is the restoration of principles, practices, processes and materials to their accustomed places in the economic system that made America great; the system that will insure the continuance of national strength and confidence.

## A Congressman's War Program

Congressman Woodrum of Virginia has outlined a war program which contains points worthy of the attention of every American.

The basis of his plan lies in conserving our American institutions and insuring a sound economic condition after the war. The idea is to make things so that "when the war is over we will have something worth saving". Mr. Woodrum suggests that we "lay aside all further social and fiscal experiments". He proposes that we economize in Washington and hold down the national debt. "Cut non-essential spending to the bone," he says.

## Production

The United States—our Constitution, our riches of freedom, our wealth of natural and created resources, the farms and enterprises and institutions that flourish under our flag, the soil from which we have grown and the ways of life that are ours—these we cherish. Today we affirm our patriotism with an understanding more clear-minded than ever before in our time. We want to keep our America. Living and dynamic, it is still in process of creation. Not only do we want to keep it, but we want to keep on creating it.—Wheeler McMillen.

## Religion and Philosophy

Philosophy can do nothing which religion cannot do better than she; and religion can do a great many other things which philosophy cannot do at all.—Rousseau.

## "The Problems of Lasting Peace"

Herbert Hoover and Hugh Gibson, from their vast experience during the last war and the negotiations for peace, have made a vital contribution in this book which has just been published. Like all thinking Americans, these men desire to avoid the mistakes of the Treaty of Versailles. "We can have peace or we can have revenge but we cannot have both."

Mr. Hoover, referring to the peace after the first World war, says: "We went to the Peace Conference in 1919 animated by the loftiest and most disinterested ideals, but we were totally unprepared for the specific problems that had to be met at the peace table. We secured neither peace, freedom, nor prosperity." Mr. Hoover lists seven dynamic forces which must be dealt with. First, ideologies; second, economic pressures; third, nationalism; fourth, militarism; fifth, imperialism; sixth, the complexes of fear, hate, and revenge; and seventh, the will to peace.

## Personal Liberty

Concerning our cherished personal liberty, Mr. Hoover says:

"The definition of personal liberty varies from time to time and from race to race, for it is modified by the whole racial history of peoples. But there are two essential common denominators."

"The first common denominator is the concept of the dignity of man and his personal rights. And, included in this concept, is that these rights are an endowment by the Creator and are inalienable by the state or any other domination. This concept came from two urges. One was from the demand of men for intellectual and spiritual freedom—free speech and free worship; the second, equally potent, was the demand of men for an economic freedom in which they might choose their own callings, bargain for their own labor, and reap and hold the rewards from their own enterprise and efforts."

Mr. Hoover has a deep concern not only for victory over foreign enemies, but for the preservation of our American freedom of opportunity and liberty of conscience as pledged to us by our Constitution. No one has ever questioned Mr. Hoover's honesty, his wide experience and knowledge of the facts, the stature of his mind or his abiding patriotism.

## What You Buy With WAR BONDS

Gas masks which came into use in warfare for the first time when the Germans used poison and mustard gas in World War I, are much improved today over those used then. The Chemical Warfare Branch of the War Department issues these gas masks to every man in the service. We are taking no chances.

The type pictured here is the "can" and "elephant nose" mask and costs about \$9.25 each. The headgear is transparent, made of material resembling cellophane and does not cloud with the breath. You can buy two of these gas masks with the purchase of an \$18.75 War Bond. We need thousands of them. Don't fail to give at least ten percent of your income every pay day for War Bonds. Buy them at your bank or postoffice, regularly.

Garden—Fresh Vegetables Bring Health to Your Table  
(See Recipes Below.)

## Summer Salads

Salads with summertime meals form a perfect alliance bringing your family precious pep-giving minerals and vitamins. Vitamins A, B, and C are well represented in crisp celery, golden skinned carrots, rosy cheeked tomatoes, green glowing cucumbers and lettuce. Dress them up with a light liquid salad oil blended with seasonings to bring out the hidden flavoring of the vegetables, and you have a perfect warm weather meal.

### \* Tossed Garden Salad

Wash and drain dry your favorite salad greens—such as lettuce, romaine, watercress or endive; a combination of two or more may be used. Cut or break into pieces and combine with portions of diced celery, cucumber, green pepper, radishes and minced onion. Chill thoroughly. Then place in a salad bowl; add Basic French Dressing and bits of tomato. Toss lightly until well blended. This type of salad may also be served with just an oil and vinegar combination as a dressing.

### Basic French Dressing.

(Makes ¼ cup)  
½ teaspoon salt  
½ teaspoon sugar  
¼ teaspoon paprika  
Dash white pepper  
½ teaspoon dry mustard  
½ cup mild salad oil  
¼ cup cider vinegar  
or lemon juice

Combine first five ingredients in a jar and blend well. Add vinegar, cover and shake; add oil and shake again thoroughly. Just before using, shake again. Or simply mix ingredients together in a bowl and beat with mixer until well blended.

Leftover meats and vegetables served daintily in lettuce cups make tempting main dishes for lunch or supper. Have a hot soup, potato chips, thin bread and butter sandwiches and fresh fruit to serve with salad. The next three salads are perfect as a main course.

### Veal Salad, Summer Style.

(Serves 6)  
2 cups cold veal, diced  
1 cup string beans or celery or both  
6 hard-cooked eggs  
Salt and pepper  
4 tablespoons salad oil  
1½ tablespoons vinegar  
3 tomatoes  
Mayonnaise  
Lettuce and parsley

Chop eggs coarsely, combine with veal, oil, vinegar, salt and pepper. Let stand 30 minutes. Add mayonnaise to moisten. Arrange salad in a mound and garnish.

### Jellied Green Pea Salad.

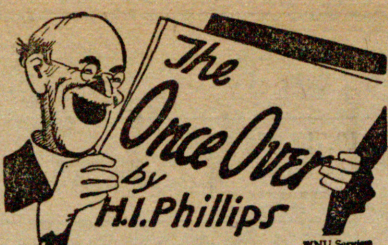

(Serves 6)  
1 tablespoon gelatin  
¾ cup cold water  
¾ cup pea liquor

## Lynn Says:

**Save Washing Time:** So many new demands are being made on your time these days, it is wise to make the best possible use of each minute. One way is in how you use your washing machine.

For instance, long washing is not necessarily good washing, and it wastes time. Soap undergoes a chemical change after it has been used a little while, suds "break down" and the soil is actually deposited again on the fabric. Then it is practically impossible to get the articles clean. Only individual experimentation can show how short to keep the washing of each load, and yet be thorough. Tests have revealed one woman taking only half the time of another to wash a practically identical washing, yet doing it better.

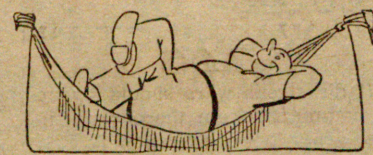

Twenty-minute soaking hastens washing by loosening soil. Then remove water by wringing the articles into the first washer full of sudsy water of the right temperature.

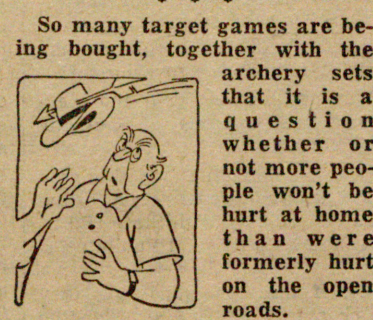

## AMERICA GOES BACKYARDISH

This is going to be a backyard summer. The slogan is "See Your Own Landscaping First!"

The gas and tire crisis is going to reintroduce to millions of Americans the attractions of their own homes.

Merchants report boom sales of hammocks, swings, lawn games, rustic furniture, porch comforts and outdoor grills. One big department store reports a run on shuffle board sets, croquet sets and archery equipment. Believe it or not it is even advertising "six-foot stilts as great fun for grown-ups."

So many target games are being bought, together with the archery sets that it is a question whether or not more people won't be hurt at home than were formerly hurt on the open roads.

People who have gone for life in their own backyards insist that they have discovered it possible to enjoy all the comforts they used to drive miles to get. With a 50 per cent cut in indigestion, no interference from the motorcycle cops and 90 per cent fewer family disputes.

The great joy of spending an entire Sunday in one family group with no battles regarding detours is being widely discovered.

And it is amazing how many people are discovering that a hotdog cooked on a backyard grill tastes better than the ones in the roadside stands. Not to mention the additional exercise setting up the grill, getting the charcoal and rushing for salve to apply to burned thumbs.

Imagine the complete change in American habits: a whole Sunday without any interference by traffic lights!

The fine thing about a charcoal grill is that it has no carburetor adjustments and no defective windshield wipers.

And it has no body squeaks or funny noises under the chassis.

And this is what makes a charcoal grill such a genuine relief: you only use one to the yard and no woman driver is going to back into it.

That the hold-out system of collecting the income tax will go through is certain. Out of almost every man's salary a percentage will be deducted at the office and turned over to Uncle Sam. Can you remember away back when the bookkeeping department in a business house lived a normal life?

Have you got a rubber stamp? You know how it tends to slow; Give it to your country now—Let it help to slow the foe!

"General Spaatz Named Head of AEF Air Forces."—Headline. Eisenhower? . . . Nimitz? . . . Stratmeyer? . . . Spaatz? Boy, will this be confusing to the Germans!

A man who killed a neighbor for leaving the radio on too loudly has been let off with seven years in prison. The judge must have lived in an apartment, too.

President Roosevelt says it may be necessary to confiscate all auto tires. The President now looks at the common citizen and says, "I wouldn't mind being in your shoes."

If tire confiscations become a fact it may be necessary to reward that old campaign pledge: A two quart garage and four cars on every tire.

## THE WORRIED AUTOIST

I have four tires on my car—They're all a little worn; And every night I have a fear They won't be there next morn.

I pat each one and gently say "Goodnight, and bless your heart! Let's hope there'll be another week Before we have to part!"

They seem to look at me and sigh, Before the doors I slam, "Well, anyhow, it's one more day Unseized by Uncle Sam!"

# PATTERNS

## SEWING CIRCLE

IN SPITE of record heat—relax and enjoy life in this open top princess line frock! It has straps only over the shoulders and is cut to emphasize your slim waist. Hemmed above the knees this style makes the smartest of tennis dresses! Regular length, it is a wonderful heat defier, and, worn with a jacket, is a smart costume for any daytime occasion.

Pattern No. 8157 is in sizes 12 to 20. Size 14 dress and jacket requires 5 yards of 39-inch material, 12 yards tie rack.

### All-Day Dress.

LONG straight lines running from shoulder to hem of this dignified frock give it a smooth silhouette which is flattering for every wearer. The detailing of

the side piecings and the soft gathers at the waist add style interest too, to a model which is ideally suited to the season's smartest cotton materials—printed pique, linen, lawn or rayon prints. It is easy to decorate the neckline, too, with clips, a flower or a pretty necklace!

Pattern No. 8141 is in sizes 36 to 52. Size 38 requires 4½ yards 39-inch material.

Send your order to:

Your Discarded Furniture, Piano, Radio, Bicycle, Tools, Ice Box, can be sold with  
**A WANT AD IN THIS NEWSPAPER**

MICKIE SAYS—

THIS MAY BE A NEW IDEA TO SOME, BUT A GOOD CITIZEN IS LOYAL TO HIS HOME NEWSPAPER, BECAUSE IT IS A LOCAL INSTITUTION WORKIN' FOR THE GOOD OF OUR TOWN

Not everybody with a dollar to spare can shoot a gun straight—but everybody can shoot straight to the bank and buy War Bonds. Buy your 10% every pay day.

## WE COULD "WIN" AND STILL LOSE

"What shall it profit us to win the war," asked Albert W. Hawkes not long ago on the American Forum of the Air. "If we lose the things we are fighting for—our American way of life?"

Admitting that our first obligation is to win, Mr. Hawkes went on to say that economy in expenditures and efficiency in operation will be required. All non-military expenses of government must be cut to the bone. Voluntary agreements between labor and management must be accomplished wherever possible. We must win in the shortest possible time, save human lives, prevent a long, grueling struggle and the unnecessary waste of our resources.

"Loyal Americans are ready to submerge temporarily such individual rights as the exigencies of war demand," continued Mr. Hawkes, "yet they will be alert not to surrender their essential freedoms."

"The business man, both large and small, wants to bear his full share of the war burden and sacrifice (and he might well have included the American farmer), but he wants it to be fair and he wants to live through and survive after the ordeal. He wants to know that our freedom and way of life are being preserved."

Mr. Hawkes summed up by saying that Americans consider it the duty of those in authority to make certain that no favoritism is shown to, or unjust penalty inflicted upon, any one or group of our citizens, and that we shall not sacrifice, toil and sorrow in vain.

## American Freedoms

"I believe that freedom of thought, freedom of discussion, freedom of the press and of speech—yes, freedom of radio—form the cornerstone of democracy. It is and always has been recognized that the rights of free men can only be guaranteed through the free play of ideas and through the right to criticize the action of those placed in temporary authority of office."—Neville Miller, president of the National Association of Broadcasters.

## Partners

The partnership between industry and agriculture provides greater living comforts for the people generally, and new markets for products from American farms.

## Economy

Without economy none can be rich, and with it few will be poor.—Ben Johnson.
